Dear Sir/Madam

Schroder Global Healthcare Fund (the "Fund"): Comparator benchmark change

We are writing to inform you of certain changes to the comparator benchmark of the Fund, in which you are invested.

The changes described in this letter will take effect from 1 July 2023 (the "Effective Date").

The changes described in this letter do not require unitholder approval and you do not need to take any action, however, we encourage you to read this letter as it contains important information about your investment.

There will be no change to the way in which the Fund is managed or its risk profile as a result of these changes.

Proposed changes and rationale

With effect from the Effective Date:

1. The Fund's comparator benchmark will change from the **MSCI AC World Health Care Daily (Gross Total Return) index** to the **MSCI AC World Health Care Daily (Net Total Return) index**

The move to a net target benchmark brings the Fund in line with Schroders' preferred approach to equity target benchmarks in its Schroder Unit Trusts Limited fund range. It also aligns the actual returns that investors will receive more closely with the target benchmark, as a net target benchmark takes into account the tax paid on dividends, whereas a gross target benchmark does not. By allowing for the taxes payable on dividends, a net target benchmark reduces the total return from the target benchmark. This makes it a more accurate measure of our investment manager's ability to add value.

A full list of the Funds and unit classes affected are shown in the Appendix.

Your options

We hope that you will remain invested in the Fund, but you are entitled to switch your units in the Fund for units or shares in another Schroders fund, free of any initial charge, at any time before the Effective Date.

Costs

The costs and expenses of the change will be borne by Schroder Unit Trusts Limited.
