Notice to shareholders

Luxembourg, 7 July 2023,

Dear Shareholders,

In the past, a “Multi-Currency facility” service (as more fully described in the Fund’s prospectus) has been made available and implemented for several share classes within the sub-funds of the Fund.

It has however been decided to restrict the “Multi-Currency facility” service. As a result, the board of directors of the Fund has decided, in accordance with article 34 of the articles of incorporation of the Fund, to proceed with a split of the impacted share classes.

Further to the split operation, shareholders holding shares of the impacted share classes and benefiting from this Multi-Currency facility service will receive shares of a share class presenting the same characteristics than the one previously held save that the reference currency of the new share class will be identical to the “other valuation currency” chosen by the shareholder (rather than the reference currency of the share class).

As an example, a shareholder holding shares of the Classic-CAP share class denominated in USD and for which EURO is the “other valuation currency” pursuant to the “Multi-Currency facility” service will receive, after the split operation, shares of the Classic EUR – CAP share class of the same sub-fund.

The full list of impacted share classes together with the relevant effective date of the split operation is available in the appendix to this notice. Shareholders holding shares of these shares classes but not benefiting from the “Multi-Currency facility” service will **not** be impacted by the split operation.

Most of the shareholders will receive after the split operation the same number of shares than the one held before the split operation, as the split ratio will be 1:1.

However, for share classes with an asterisk in the table in the appendix, the ratio will not be 1:1 but will depend on the net asset value of the former and new share class and the number of shares received after the split operation may vary. The total value of the shares held will nevertheless not be impacted by the split operation. In that case, exchange ratios will be validated by PricewaterhouseCoopers, the auditor of the Fund.

The costs of this operation (including the auditor’s fees) will be borne by BNP PARIBAS ASSET MANAGEMENT Luxembourg, the management company of the Fund.

BNP PARIBAS
ASSET MANAGEMENT

The sustainable
investor for a
changing world

Last subscription, redemption or conversion orders in the “Multi-Currency facility” of the impacted share classes will be accepted on the date indicated in the table in the appendix.

This suspension is foreseen in the best interest of the shareholders in order to ensure that the event can be well executed by the administrative agent and well reflected by the distributors. Indeed, if there is no suspension, the event will take place while some trades could not be settled and this could create issues and confusion for shareholders.

Your options:

1. **If you are comfortable with the split operation**, you do not need to take any action;
2. **Should you do not approve the split operation**, to be implemented for the share classes you are invested in, you have the possibility to request the redemption of your shares free of charge until 7 August 2023.

This split operation could have tax consequences you may want to discuss with your tax adviser.

In case of **any question**, please contact our **Client Service (+ 352 26 46 31 21 / AMLU.ClientService@bnpparibas.com)**.

ADDITIONAL INFORMATION

If a clearinghouse holds your shares, we advise you to enquire about the specific terms applying to subscriptions, redemptions and conversions made via this type of intermediary.

Please note that except for the newspaper publications required by Law, the official media going forward to obtain any notice to shareholders will be our website www.bnpparibas-am.com.

Best regards,

The Board of Directors
