Dear Shareholder,

Schroder International Selection Fund ('the Company')— European Alpha Absolute Return merger with Schroder International Selection Fund — Sustainable European Market Neutral

We are writing to advise you that on 27 September 2023 (the "Effective Date"), Schroder International Selection Fund — Sustainable European Market Neutral (the "Merging Fund") will merge with Schroder International Selection Fund — European Alpha Absolute Return (the "Receiving Fund") (the "Merger"). Shareholders in the Merging Fund will receive the equivalent value of shares in the Receiving Fund in place of their current shares in the Merging Fund.

Background and rationale

The Merging Fund and the Receiving Fund have a similar investment approach and risk profile, and given that both funds have a relatively small fund size, we believe that shareholders in both funds will benefit from this Merger. The Merging Fund had approximately EUR 24.4 million under management as of 1st May 2023 while the Receiving Fund had approximately EUR 51.4 million under management as of the same date.

Both the Merging Fund and the Receiving Fund focus on providing a positive return after fees have been deducted by investing in equity and equity related securities of European companies.

Both the Merging Fund and the Receiving Fund have environmental and/or social characteristics within the meaning of Article 8 under the Sustainable Finance Disclosure Regulation (SFDR). However, the Merging Fund's investment objective provides that individual holdings in the portfolio will meet the Investment Manager's sustainability criteria, while for the Receiving Fund sustainability is considered in the context of the overall portfolio. Both the Merging Fund and the Receiving Fund maintain a positive absolute sustainability score based on the Investment Managers rating system, and apply certain exclusions.

Shareholders in the A, A1, B share classes of the Receiving Fund will receive a 25bps management fee reduction (from 1.50% to 1.25%) following the Merger. The Receiving Fund currently has slightly lower on-going charges (the OGC), and we believe that the combined assets under management of the Merging Fund and the Receiving Fund will offer potential economies of scale to both sets of investors in the future. The OGC of the A, A1 and B share classes of the Receiving Fund will reduce on the Effective Date when the management fee reduction is effective.

As a result of this Merger, the extent of the change to the risk/reward profile of the Receiving Fund is non-significant.

The decision to merge the Merging Fund into the Receiving Fund has been made in accordance with Article 5 of the articles of incorporation of Schroder International Selection Fund (the "Company") and the provisions of the prospectus of the Company (the "Prospectus") and is in the interest of both funds' shareholders.

Comparison of the investment objectives and policies

The investment objectives of both the Merging Fund and the Receiving Fund include the provision of a positive return after fees have been deducted by investing in equity and equity related securities of European companies. Both funds seek to deliver focused returns that are uncorrelated to equity markets. Both the Merging Fund and the Receiving Fund may use derivatives for the purposes of achieving investment gains, hedging risks and efficient portfolio management.

The difference between the investment objectives of the Merging Fund and the Receiving Fund is that the Merging Fund seeks to provide a positive return over a period of three years in all market conditions, whereas the Receiving Fund aims to provide a positive return after fees have been deducted over a 12-month period. The gross exposure of contracts for difference for both the Merging Fund and the Receiving Fund will not exceed 250%. The Merging Fund cannot use total return swaps but the Receiving Fund can use such instruments and its gross exposure will not exceed 250%. However the gross exposure to contracts for difference is expected to remain within the range of 0% to 230% of the net asset value for the Merging Fund, compared with 40% to 150% for the Receiving Fund. The gross exposure to total returns swaps is expected to remain within the 0% to 50% range for the Receiving Fund.

Comparison of the risk profiles, share classes and annual investment management fees

The **Summary Risk Indicator** (the “SRI”) is category 3 for both the Merging Fund and the Receiving Fund..

The base currency of both the Merging Fund and the Receiving Fund is EUR. A full summary of which Merging Fund share classes will be merged into which Receiving Fund share classes can be found in the Appendix.

Shareholders in the Merging Fund will be charged the same or lower annual investment management charges (the AMC) in all cases as a result of the Merger. Shareholders in the A, A1, B share classes of the Receiving Fund will receive a 25bps management fee reduction (from 1.50% to 1.25%) following the Merger.

The Receiving Fund currently has the same or slightly lower OGCs, and we believe that the combined assets under management of the Merging Fund and the Receiving Fund will offer potential economies of scale to both sets of investors in the future. The OGC of the A, A1 and B share classes of the Receiving Fund will reduce on the Effective Date when the management fee reduction is effective.

We believe that the combined assets of both funds may offer further potential economies of scale. The table below summarises the AMC and OGCs for the share classes of the Merging Fund and the Receiving Fund.

The OGCs include, where applicable, the distribution charge, shareholder servicing charge, investment management fee and other administration costs including the fund administration, custodian and transfer agency costs. They include the management fees and administration costs of the underlying investment funds in the portfolio. The OGCs are as at 30 December 2022.

additional exposure by the Receiving Fund is expected to represent 20% of its net asset value on long positions and 20% of its net asset value on index futures short positions. The costs related to this purchase will be borne by the Receiving Fund and are expected to represent approximately 0.05-0.1 bps of the net asset value of the Receiving Fund.

Dealing cut-off time and settlement periods for subscriptions and redemptions

There is no change to the dealing cut-off time or the settlement periods. The dealing cut-off time of the Receiving Fund is 1.00 p.m. Luxembourg time on the dealing day. Orders that reach HSBC Continental Europe, Luxembourg ("HSBC") before the cut-off time will be executed on the dealing day. The settlement periods for subscription and redemption are within three business days following a dealing day. A key features comparison table of the Merging Fund and the Receiving Fund (including the share class changes) can be found in the Appendix.

Merger

This Merger notice is required by Luxembourg law.

As a result of the Merger, there will be no change of legal entity acting as investment manager, which remains Schroder Investment Management Limited.

Costs and expenses of the Merger

The Merging Fund has no unamortised preliminary expenses and outstanding set-up costs. The expenses incurred in the Merger, including the legal, advisory and administrative costs, will be borne by the Company's management company, Schroder Investment Management (Europe) S.A. (the Management Company).

From 17 August 2023, the Merging Fund's net asset value per share will be adjusted down each time there is a net outflow from the Merging Fund by means of a dilution adjustment. This is in order to account for the market-related transaction costs associated with the disposal of any investments that are not in line with the Receiving Fund's portfolio, or associated with redemption or switch orders received during the period leading up to the Merger. In the event that there are net inflows to the Merging Fund during this period the net asset value per share will be adjusted upwards. The intention of the adjustment is to protect existing and continuing investors in the Merging Fund from bearing all such market-related transaction costs and to apportion these appropriately. However, we do not expect that the transaction costs will be significant and they will not have a material impact on the shareholders of the Receiving Fund and the Merging Fund. Further information relating to dilution adjustments is available in the Prospectus in section 2.4 "Calculation of Net Asset Value". The Prospectus is available at www.schroders.lu.

Exchange ratio, treatment of accrued income and consequences of the Merger

On the Effective Date, the net assets of the Merging Fund will be transferred to the Receiving Fund. For the shares of each class that they hold in the Merging Fund, shareholders of the Merging Fund will receive an equal amount by value of shares of the corresponding class in the Receiving Fund. The exchange ratio of the Merger will be the result of the ratio between the net asset value of the relevant class of the Merging Fund and the net asset value or initial issue price of the relevant class of the Receiving Fund as of the Effective Date. While the overall value of the shareholders' holdings will remain the same, shareholders may receive a different number of shares in the Receiving Fund than they had previously held in the Merging Fund.

Any accrued income relating to the Merging Fund's shares at the time of the Merger will be included in the calculation of the final net asset value per share of the Merging Fund and will be accounted for after the Merger in the net asset value per share of the Receiving Fund. The Receiving Fund will not bear any additional income, expenses and liabilities attributable to the Merging Fund accruing after the Effective Date.

You will become a shareholder of the Receiving Fund, in the share class which corresponds to your current holding in the Merging Fund. A full summary of which Merging Fund share classes will be merged into which Receiving Fund share classes can be found under section "Existing and New Share Class Mapping" in the Appendix.

Any accrual of performance fees in the share classes of the Merging Fund will be crystallised on the Effective Date and will be paid to the investment manager of the Merging Fund. As at the date hereof, no performance fees are to be paid to the investment manager as the performance of the share classes of the Merging Fund is below the applicable high water mark.

The first dealing date for your shares in the Receiving Fund will be 28 September 2023, the related deal cut-off for this dealing day being 1.00 p.m. Luxembourg time on the dealing day.

Rights of shareholders to redeem/switch

If you do not wish to hold shares in the Receiving Fund from the Effective Date, you have the right to redeem your holding in the Merging Fund or to switch into another Schroder fund at any time up to and including the dealing day on 20 September 2023.

HSBC will execute your redemption or switch instructions in accordance with the provisions of the Prospectus free of charge, although in some countries local paying agents, correspondent banks or similar agents may charge transaction fees. Local agents may also have a local deal cut-off which is earlier than that described above, so please check with them to ensure that your instructions reach HSBC before the 1.00 p.m. Luxembourg time deal cut-off on 20 September 2023.

Subscriptions or switches into the Merging Fund from new investors will not be accepted after deal cut-off on 17 August 2023. To allow sufficient time for changes to be made to regular savings plans and similar facilities, subscriptions or switches into the Merging Fund will be accepted from existing investors until 30 August 2023 (deal cut-off at 1.00 p.m. Luxembourg time).

Tax status

The conversion of shares at the time of the Merger and / or your redemption or switch of shares prior to the Merger might affect the tax status of your investment, so we recommend that you seek independent professional advice in these matters.

Further information

We advise shareholders to read the Receiving Fund's key investor information document (the KID) which accompanies this letter. This is a representative KID for the Receiving Fund, showing information for a standard share class (A share class). It is, together with the KIDs of all other available share classes, available at www.schroders.lu. The Prospectus is also available at that address. An audit report will be prepared by the approved statutory auditor in relation to the Merger and will be available free of charge upon request from the Management Company. We hope that you will choose to remain invested in the Receiving Fund after the Merger. If you would like more information, please contact your local Schroders office, your usual professional adviser or the Management Company on (+352) 341 342 202.

Yours faithfully,

The Board of Directors

The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.</p>	<p>may result in large changes in the value of the fund, both up or down.</p> <p>Sustainability risk: The fund has environmental and/or social characteristics. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the investment manager. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.</p> <p>Currency risk: The fund may lose value as a result of movements in foreign exchange rates. Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.</p> <p>Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.</p> <p>Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.</p> <p>IBOR: The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.</p> <p>Derivatives risk: Derivatives may be used to manage the portfolio efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.</p>
