AGENDA

In Order to express your vote, please tick only one box for each proposal.

1. Amendment of the final paragraph of Article 16 (Redemption and Conversion of Shares) to clarify the Board's authority to establish a redemption gate (additional text is underlined):

In case of massive redemption and/or conversion requests from a Fund on any Valuation Date (meaning requests in excess of a certain percentage of a Fund's net asset value (the "Gate") as established by the Board of Directors and set forth in the Prospectus), subject to applicable regulatory requirements, the Board of Directors may decide that all requests in excess of the Gate, or any portion of the excess requests, be deferred to the following Valuation Date or for a period (not to exceed ten business days) and in a manner that the Board of Directors considers to be in the best interests of the Company and its shareholders as described in the Prospectus. The Company will inform affected shareholders accordingly. Following that period, with respect to the next relevant Valuation Date, these requests will be met in priority to later requests, if necessary on a *pro rata* basis among involved shareholders. In addition, the Company may decide to delay the settlement of payment for some or all such requests until the Company has sold the corresponding assets in the relevant Fund without unnecessary delays. Such requests will, in any case, be dealt with by priority to later requests.
