Redemptions

Upon a request made by a Shareholder, Class A Shares may be redeemed on each Dealing Day by redemption notice at the Net Asset Value per Share for the Class A Shares calculated as at the Valuation Day immediately preceding the Dealing Day on which the redemption is to be effected (see below for details of where notice should be given).

Direct Participants

In order for a redemption to be valid, Direct Participants must give their redemption notices to the relevant Clearing System (in accordance with the applicable rules of that Clearing System) to be received by the relevant Clearing System at the latest by 23:00 (London time) three Business Days prior to the Dealing Day on which the redemption is to be effected.

Payment of redemption proceeds will be made usually within five Business Days after the date on which the calculation of the Net Asset Value per Share of the Class A Shares is available to the Administrator, who will credit the relevant clearing account accordingly.

Standard Shareholders

Standard Shareholders must give their redemption notice to the Administrator (which has been appointed by the Registrar to effect this process) by fax or by any other form of electronic communications agreed in advance with the Administrator (provided all ongoing anti-money laundering checks are complete) to the Administrator by no later than 23:00 (London time) three Business Days prior to the Dealing Day in respect of which the redemption is made. Payment of redemption proceeds to Standard Shareholders will be made usually within five Business Days of the date on which the calculation of the Net Asset Value per Share of the Class A Shares is available to the Administrator.

The Protected Cell is under no obligation to pay any redemption proceeds until the original Application Form is required and Anti-Money Laundering Documents have been received by the Administrator.

Redemption fee

All marketing and related costs (which may include payments from fees received by the Man Group to distributors and other persons) are borne by the Marketing Adviser and/or any other member of the Man Group. No such costs are borne by the Protected Cell (other than as provided to the contrary in the section entitled 'Charges and fees'). Consequently, in case of a redemption of Class A Shares before they have been in issue for the periods shown below, the redemption price for the Class A Shares redeemed will be paid by the Protected Cell to the Shareholder after deduction of a fee which will in turn be paid to the Marketing Adviser primarily to compensate it for the costs of arranging for the marketing of the Class A Shares, as follows:

For each Share redeemed on a Dealing Day	Redemption fee
During the first two calendar years after the issue of that Share	2.0 % of Net Asset Value per Share
During the third or fourth calendar years after the issue of that Share	1.5 % of Net Asset Value per Share
During the fifth or sixth calendar years after the issue of that Share	0.5 % of Net Asset Value per Share

There will be no redemption fee imposed on Class A Shares which are redeemed after they have been in issue for six years.

The Directors reserve the right to waive or rebate, in whole or in part, the redemption fee payable on Tranche B Shares either generally or in respect of individual applicants.

Charges and fees

Investment management and incentive fees

Investment management fees will be calculated weekly and payable monthly at a rate of up to 1/52 of 3% of the investment exposure (up to approximately 3% per annum) (see the section above entitled 'Investment exposure') allocated to the AHL Diversified Programme.

A weekly incentive fee will be calculated and charged as at each Valuation Day at a rate of up to 20% of any net new appreciation per Class A Share (prior to the calculation and deduction of the incentive fee itself). Incentive fees are only payable if the net increase in value attributable to the Investment Strategy exceeds a previously attained value for such Investment Strategy.

All or a portion of these fees may be received by Man Group or its affiliates.

Designated Administrator, Services Manager and Registrar fees

The fees payable to the Services Manager are calculated weekly and paid quarterly in arrears and are based on the following sliding scale (calculated by reference to the Net Asset Value on each Valuation Day) subject to a minimum fee of up to USD 105,000 per annum:

Value to which the fee will be applied (USD)	Fee will comprise an amount equal to one-fifty-second of USD 50,000 per week and
0 - 50,000,000	one-fifty-second of 0.30 % of the Net Asset Value of the Shares
50,000,000.01 - 100,000,000	one-fifty-second of 0.20 % of the Net Asset Value of the Shares
100,000,000.01 - 249,999,999.99	one-fifty-second of 0.125 % of the Net Asset Value of the Share
250,000,000.00 - 499,999,999.99	one-fifty-second of 0.10 % of the Net Asset Value of the Shares
500,000,000.00 or more	one-fifty-second of 0.05 % of the Net Asset Value of the Shares

By way of illustration, if the Net Asset Value on a Valuation Day was USD 150 million the fees described above would comprise USD 3,847 (USD 962 and USD 2,885) in respect of the first USD 50 million, USD 1,923 for the portion of the Net Asset Value over USD 50 million and up to and including USD 100 million and USD 1,202 in respect of the remaining amount of the Net Asset Value.

The Services Manager is entitled to a fixed set-up fee of USD 12,500 per annum, paid quarterly in arrears, plus: (i) a fee of USD 75 per new investor account (direct investors only); (ii) a transaction fee of USD 50 per Shareholder transaction; (iii) an account maintenance fee of USD 25 per account, subject to a minimum of USD 10,000 per annum, paid quarterly in arrears; and (iv) a product complexity fee of USD 10 per investment, subject to a minimum of USD 10,000 per annum, paid quarterly in arrears by the Protected Cell.

The Services Manager has appointed the Administrator to carry out certain general shareholder and accounting and valuation services. No additional fees to those described above will be payable to the Services Manager pursuant to the Services Management Agreement. The Services Manager will pay a portion of such fee to the Administrator. The Services Manager is solely responsible for the payment of fees to the Administrator and the Protected Cell will have no responsibility or liability for such fees.

The Services Manager will have the right to be reimbursed directly from the assets of the Protected Cell for any reasonable out-of-pocket expenses incurred in carrying out its responsibilities to the Protected Cell.

Man Asset Management (Cayman) Limited is solely responsible for the payment of fees to the Designated Administrator and the Protected Cell will have no responsibility or liability for such fees.

An increase in the fees payable to the Services Manager, Investment Manager and AIFM cannot occur without sufficient notice having being given such that the Shareholder may redeem its shares prior to the increase coming into effect.

In addition to the payment of the fees, each Protected Cell shall be responsible for and shall reimburse the AIFM, the Marketing Adviser, the Trading Adviser and the Investment Manager for all reasonable out-of-pocket costs and expenses incurred by the AIFM, the Marketing Adviser, the Trading Adviser and the Investment Manager in the fulfilment of their respective obligations to the Protected Cell.

Sales charge

All marketing and related costs (which may include payments from fees received by the Man Group to distributors and other persons) are borne by the Marketing Adviser and/or any other member of the Man Group. No such costs are borne by the Protected Cell (other than as provided to the contrary in the section entitled 'Charges and fees'). Consequently, in case of an application for Tranche B of Class A Shares, a sales fee may be charged which will in turn be paid to the Marketing Adviser primarily to compensate it for the costs of arranging for the marketing of the Tranche B Class A Shares. A sales fee of up to 3% of the Subscription Price of the Tranche B Shares of Class A is payable, upon subscription, to the Investment Manager. The Investment Manager shall have the right to change the quantum of the sales fee as it deems fit. The Investment Manager reserves the right to waive or rebate, in whole or in part, this fee either generally or in respect of individual applicants.

Other fees and expenses

The Class A Shares bear, indirectly or directly, all costs and brokerage commissions associated with trading transactions which will include an introducing brokerage fee, payable to the Introducing Broker, of up to 1% of the investment exposure (see the section above entitled 'Investment exposure') allocated to the AHL Diversified Programme.

The Class A Shares bear directly or indirectly the expenses associated with the preparation, printing and distribution costs of the periodic and annual reports and statements. The Services Manager has delegated responsibility for

preparation of such financial statements to the Administrator who will prepare the financial statements directly or through an affiliate. The expenses associated with preparation of financial statements will be as agreed between the Administrator and the Services Manager from time to time and are not expected to exceed USD 10,000 per annum in respect of annual financial statements and, if applicable, USD 7,000 per annum in respect of interim financial statements.

In addition to such fees and expenses, the Protected Cell may, from time to time, incur certain other fees and expenses incidental to its operations and business, the cost of which may vary, including, without limitation, taxes, clearing and registration fees and other expenses due to regulatory, supervisory or fiscal authorities in various jurisdictions, insurance, interest, liquidation costs, promotional and marketing expenses and all professional and other fees and expenses in connection therewith, as well as out-of-pocket expenses incurred by the Protected Cell's service providers as noted above.

Where it is possible to identify costs, fees and expenses directly to the Class A Shares then these costs, fees and expenses will be charged directly to the Class A Shares. Where costs, fees and expenses are not specifically for Class A Shares, such costs, fees and expenses will be allocated to Class A Shares on a basis agreed by the Investment Manager after consultation with the Directors, and the Trustee.

Specific risk factors

The Class A Shares are subject to certain risk factors, including but not limited to the general risk factors set out in the section entitled 'Key risks' of the Prospectus and the following.

Shareholders will need to submit a notice of redemption to the Administrator by no later than 23:00 (London time) three Business Days prior to the Dealing Day on which any redemption is intended to be made. At the date of this Supplement, there is currently no secondary market for the Class A Shares. Shareholders will therefore not know in advance of giving the notice of redemption the price at which the Class A Shares will be redeemed. In the period after which the notice of redemption has been given and before the relevant Dealing Day, the Net Asset Value per Share and therefore the Redemption Price which will be payable to the Shareholder may change substantially due to market movements. Shareholders are not entitled to withdraw a request for redemption following the deadline for the submission of redemption requests unless the Directors otherwise determine or unless a suspension of dealings and/or valuations has been declared in accordance with the terms of the Prospectus.

Listing

The Class A Shares were listed on the Channel Islands Stock Exchange LBG on 2 January 2008 and transferred by operation of law to the official list of The International Stock Exchange (formerly known as Channel Islands Securities Exchange Authority) on 20 December 2013 as a consequence of the statutory scheme of arrangement implemented in respect of the Exchange.

Changes to the standard terms and conditions

All marketing and related costs (which may include payments from fees received by the Man Group to distributors and other persons) are borne by the Marketing Adviser and/or any other member of the Man Group. No such costs are borne by the Protected Cell (other than as provided to the contrary in the section entitled 'Charges and fees'). Consequently, in case of a redemption of Class B Shares before they have been in issue for the periods shown below, the redemption price for the Class B Shares redeemed will be paid by the Protected Cell to the Shareholder after deduction of a fee which will in turn be paid to the Marketing Adviser primarily to compensate it for the costs of arranging for the marketing of the Class B Shares, as follows:

For each Share redeemed on a Dealing Day	Redemption fee
During the first two calendar years after the issue of that Share	2.0 % of Net Asset Value per Share
During the third or fourth calendar years after the issue of that Share	1.5 % of Net Asset Value per Share
During the fifth or sixth calendar years after the issue of that Share	0.5 % of Net Asset Value per Share

There will be no redemption fee imposed on Class B Shares which are redeemed after they have been in issue for six years.

The Directors reserve the right to waive or rebate, in whole or in part, the redemption fee payable on Tranche B Shares either generally or in respect of individual applicants.

Charges and fees

Investment management and incentive fees

Investment management fees will be calculated weekly and payable monthly at a rate of up to 1/52 of 3% of the investment exposure (up to approximately 3% per annum) (see the section above entitled 'Investment exposure') allocated to the AHL Diversified Programme.

A weekly incentive fee will be calculated and charged as at each Valuation Day at a rate of up to 20% of any net new appreciation per Class B Share (prior to the calculation and deduction of the incentive fee itself). Incentive fees are only payable if the net increase in value attributable to the Investment Strategy exceeds a previously attained value for such Investment Strategy.

All or a portion of these fees may be received by Man Group or its affiliates.

Designated Administrator, Services Manager and Registrar fees

The fees payable to the Services Manager are calculated weekly and paid quarterly in arrears and are based on the following sliding scale (calculated by reference to the Net Asset Value on each Valuation Day) subject to a minimum fee of up to USD 105,000 per annum:

Value to which the fee will be applied (USD)	Fee will comprise an amount equal to one-fifty-second of USD 50,000 per week and
0 - 50,000,000	one-fifty-second of 0.30 % of the Net Asset Value of the Shares
50,000,000.01 - 100,000,000	one-fifty-second of 0.20 % of the Net Asset Value of the Shares
100,000,000.01 - 249,999,999.99	one-fifty-second of 0.125 % of the Net Asset Value of the Share
250,000,000.00 - 499,999,999.99	one-fifty-second of 0.10 % of the Net Asset Value of the Shares
500,000,000.00 or more	one-fifty-second of 0.05 % of the Net Asset Value of the Shares

By way of illustration, if the Net Asset Value on a Valuation Day was USD 150 million the fees described above would comprise USD 3,847 (USD 962 and USD 2,885) in respect of the first USD 50 million, USD 1,923 for the portion of the Net Asset Value over USD 50 million and up to and including USD 100 million and USD 1,202 in respect of the remaining amount of the Net Asset Value.

The Services Manager is entitled to a fixed set-up fee of USD 12,500 per annum, paid quarterly in arrears, plus: (i) a fee of USD 75 per new investor account (direct investors only); (ii) a transaction fee of USD 50 per Shareholder transaction; (iii) an account maintenance fee of USD 25 per account, subject to a minimum of USD 10,000 per annum, paid quarterly in arrears; and (iv) a product complexity fee of USD 10 per investment, subject to a minimum of USD 10,000 per annum, paid quarterly in arrears by the Protected Cell.

The Services Manager has appointed the Administrator to carry out certain general shareholder services and accounting and valuation services. No additional fees to those described above will be payable to the Services Manager pursuant to the Services Management Agreement. The Services Manager will pay a portion of such fee to the Administrator. The Services Manager is solely responsible for the payment of fees to the Administrator and the Protected Cell will have no responsibility or liability for such fees.

The Services Manager will have the right to be reimbursed directly from the assets of the Protected Cell for any reasonable out-of-pocket expenses incurred in carrying out its responsibilities to the Protected Cell.

Man Asset Management (Cayman) Limited is solely responsible for the payment of fees to the Designated Administrator and the Protected Cell will have no responsibility or liability for such fees.

An increase in the fees payable to the Services Manager, Investment Manager and AIFM cannot occur without sufficient notice having been given such that the Shareholder may redeem its shares prior to the increase coming into effect.

In addition to the payment of the fees, each Protected Cell shall be responsible for and shall reimburse the AIFM, the Marketing Adviser, the Trading Adviser and the Investment Manager for all reasonable out-of-pocket costs and expenses incurred by the AIFM, the Marketing Adviser, the Trading Adviser and the Investment Manager in the fulfilment of their respective obligations to the Protected Cell.

Sales charge

All marketing and related costs (which may include payments from fees received by the Man Group to distributors and other persons) are borne by the Marketing Adviser and/or any other member of the Man Group. No such costs are borne by the Protected Cell (other than as provided to the contrary in the section entitled 'Charges and fees'). Consequently, in case of an application for Tranche B of Class B Shares, a sales fee may be charged which will in turn be paid to the Marketing Adviser primarily to compensate it for the costs of arranging for the marketing of the Tranche B Class B Shares. A sales fee of up to 3% of the Subscription Price of the Tranche B Shares of Class B is payable, upon subscription, to the Investment Manager. The Investment Manager shall have the right to change the quantum of the sales fee as it deems fit. The Investment Manager reserves the right to waive or rebate, in whole or in part, this fee either generally or in respect of individual applicants.

Other fees and expenses

The Class B Shares bear, indirectly or directly, all costs and brokerage commissions associated with trading transactions which will include an introducing brokerage fee, payable to the Introducing Broker, of up to 1% of the investment exposure (see the section above entitled 'Investment exposure') allocated to the AHL Diversified Programme.

The Class B Shares bear directly or indirectly the expenses associated with the preparation, printing and distribution costs of the periodic and annual reports and statements. The Services Manager has delegated responsibility for preparation of such financial statements to the Administrator who will prepare the financial statements directly or through an affiliate. The expenses associated with preparation of financial statements will be as agreed between the Administrator and the Services Manager from time to time and are not expected to exceed USD 10,000 per annum in respect of annual financial statements and, if applicable, USD 7,000 per annum in respect of interim financial statements.

In addition to such fees and expenses, the Protected Cell may, from time to time, incur certain other fees and expenses incidental to its operations and business, the cost of which may vary, including, without limitation, taxes, clearing and registration fees and other expenses due to regulatory, supervisory or fiscal authorities in various jurisdictions, insurance, interest, liquidation costs, promotional and marketing expenses and all professional and other fees and expenses in connection therewith, as well as out-of-pocket expenses incurred by the Protected Cell's service providers as noted above.

Where it is possible to identify costs, fees and expenses directly to the Class B Shares then these costs, fees and expenses will be charged directly to the Class B Shares. Where costs, fees and expenses are not specifically for Class B Shares, such costs, fees and expenses will be allocated to Class B Shares on a basis agreed by the Investment Manager after consultation with the Directors, and the Trustee.

Specific risk factors

The Class B Shares are subject to certain risk factors, including but not limited to the general risk factors set out in the section entitled 'Key risks' of the Prospectus and the following.

Shareholders will need to submit a notice of redemption to the Administrator by no later than 23:00 (London time) three Business Days prior to the Dealing Day on which any redemption is intended to be made. At the date of this Supplement, there is currently no secondary market for the Class B Shares. Shareholders will therefore not know in advance of giving the notice of redemption the price at which the Class B Shares will be redeemed. In the period after which the notice of redemption has been given and before the relevant Dealing Day, the Net Asset Value per Share and therefore the Redemption Price which will be payable to the Shareholder may change substantially due to market movements. Shareholders are not entitled to withdraw a request for redemption following the deadline for the submission of redemption requests specified in the relevant Supplement unless the Directors otherwise determine or unless a suspension of dealings and/or valuations has been declared in accordance with the terms of the Prospectus.

Listing

The Class B Shares were listed on the Channel Islands Stock Exchange LBG on 19 November 2008 and transferred by operation of law to the official list of The International Stock Exchange (formerly known as the Channel Islands Securities Exchange Authority) on 20 December 2013 as a consequence of the statutory scheme of arrangement implemented in respect of the Exchange.

Valuation

Subject to the other terms of this Supplement, the value of the assets and the liabilities of the Protected Cell will be determined as follows:

- a) all calculations based on the value of (i) investments quoted, listed, traded or dealt in or on, any futures exchange shall be made by reference to the settlement price as at the close of business on the relevant futures exchange on the day on which such calculation is to be made; (ii) investments quoted, listed, traded or dealt in or on any other exchange (i.e. non-futures) shall be made by reference to the last quoted price; or (iii) any other investments traded or dealt in or on any over-the-counter market which is the principal exchange therefor shall be made by reference to the mean between the latest offer and bid prices quoted in each case for such investments provided always that (1) if the Directors at their discretion reasonably consider that any of the prices prevailing on an exchange other than the principal exchange provide, in all the circumstances, a fairer criterion of value in relation to any such investment, they may cause those prices to be used to determine the Net Asset Value; and (2) the Directors may, at their absolute discretion, permit some other method of valuation to be used if they reasonably consider that such valuation better reflects the fair value;
- b) forward foreign exchange contracts will be valued by reference to the price on the Valuation Day at which a new forward contract of the same size and maturity could be undertaken;
- c) investments in pooled or collective investment vehicles, including hedge funds, shall be valued at their final net asset value or, if not available, their latest available estimated net asset value (and in either case adjusted for any redemption charges, if applicable) as provided by the administrator or investment manager of the relevant fund;
- d) the value of any cash in hand or on deposit and accounts receivable, prepaid expenses and cash dividends accrued and not yet received shall be deemed to be the full amount thereof, unless the Directors are of the opinion that it is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Directors may consider appropriate to reflect the true value thereof;
- e) if no price quotations are available in the manner provided above, the value thereof shall be determined from time to time in such manner as the Directors shall reasonably determine;
- f) any value (whether of a security or cash) otherwise than in EUR shall be translated into EUR at the rate (whether official or otherwise) that the Directors shall, in their absolute discretion, reasonably deem appropriate in the circumstances, having regard, inter alia, to any premium or discount that they reasonably consider may be relevant and to costs of exchange.

Collateral

The Directors may exercise all borrowing powers on behalf of the Protected Cell and mortgage or charge its undertaking, property and assets (including its uncalled capital) or any part thereof and issue debentures, debenture stock or other securities whether outright or as collateral security for any debts or obligations only in accordance with applicable laws. Nothing contained herein shall restrict liens arising in the ordinary course of business other than the fact that any such collateral will be limited to 100% of the Protected Cell's assets.

Payment of retrocessions and rebates

Retrocessions

The Investment Manager, the Protected Cell, the Swiss Representative or their agents, as the case may be, may pay retrocessions as remuneration for offering and marketing activity in respect of Shares in or from Switzerland. In the period after which the notice of redemption has been given and before the relevant Dealing Day, the Net Asset Value per Share and therefore the Redemption Price which will be payable to the Shareholder may change substantially due to market movements. Shareholders are not entitled to withdraw a request for redemption following the deadline for the submission of redemption requests unless the Directors otherwise determine or unless a suspension of dealings and/or valuations has been declared in accordance with the terms of the Prospectus.

The AHL Diversified Programme employs a systematic, statistically based investment approach that is primarily designed to identify and capitalise on upwards and downward price trends across global markets.

Valuation

Subject to the other terms of this Supplement, the value of the assets and the liabilities of the Protected Cell will be determined as follows:

- a) all calculations based on the value of (i) investments quoted, listed, traded or dealt in or on, any futures exchange shall be made by reference to the settlement price as at the close of business on the relevant futures exchange on the day on which such calculation is to be made; (ii) investments quoted, listed, traded or dealt in or on any other exchange (i.e. non-futures) shall be made by reference to the last quoted price; or (iii) any other investments traded or dealt in or on any over-the-counter market which is the principal exchange therefor shall be made by reference to the mean between the latest offer and bid prices quoted in each case for such investments provided always that (1) if the Directors at their discretion reasonably consider that any of the prices prevailing on an exchange other than the principal exchange provide, in all the circumstances, a fairer criterion of value in relation to any such investment, they may cause those prices to be used to determine the Net Asset Value; and (2) the Directors may, at their absolute discretion, permit some other method of valuation to be used if they reasonably consider that such valuation better reflects the fair value;
- b) forward foreign exchange contracts will be valued by reference to the price on the Valuation Day at which a new forward contract of the same size and maturity could be undertaken;
- c) investments in pooled or collective investment vehicles, including hedge funds, shall be valued at their final net asset value or, if not available, their latest available estimated net asset value (and in either case adjusted for any redemption charges, if applicable) as provided by the administrator or investment manager of the relevant fund;
- d) the value of any cash in hand or on deposit and accounts receivable, prepaid expenses and cash dividends accrued and not yet received shall be deemed to be the full amount thereof, unless the Directors are of the opinion that it is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Directors may consider appropriate to reflect the true value thereof;
- e) if no price quotations are available in the manner provided above, the value thereof shall be determined from time to time in such manner as the Directors shall reasonably determine;
- f) any value (whether of a security or cash) otherwise than in CHF shall be translated into CHF at the rate (whether official or otherwise) that the Directors shall, in their absolute discretion, reasonably deem appropriate in the

circumstances, having regard, inter alia, to any premium or discount that they reasonably consider may be relevant and to costs of exchange.

Collateral

The Directors may exercise all borrowing powers on behalf of the Protected Cell and mortgage or charge its undertaking, property and assets (including its uncalled capital) or any part thereof and issue debentures, debenture stock or other securities whether outright or as collateral security for any debts or obligations only in accordance with applicable laws. Nothing contained herein shall restrict liens arising in the ordinary course of business other than the fact that any such collateral will be limited to 100% of the Protected Cell's assets.
