AMENDED OFFERING MEMORANDUM AND SUBSCRIPTION DOCUMENT

FOR INFORMATION ONLY. NO ACTION IS REQUIRED UPON RECEIPT OF THIS CORRESPONDENCE.

Dear Shareholder,

As referenced in the letter to shareholders delivered March 12, 2018, the Board of Directors of the Fund in consultation with Castlestone Management Inc. (the "Manager") have restated the Fund's investment strategy to narrow its investment focus to low volatility stocks included in the iShares Edge MSCI Min Vol Emerging Markets ETF. As previously noted, the fundamentals of the Fund remain the same, in that it will still focus on exchange traded and liquid equities which will make up a completely transparent portfolio that does not employ leverage. Further, the Manager will continue to implement the existing buy/write strategy. The name of the Fund has been changed to "Emerging Markets Minimum Volatility Income Fund Inc.".

We are pleased to present you with the amended offering memorandum which has been registered with the BVI Financial Services Commission (the "FSC"), pursuant to the provisions of the Securities and Investment Business Act, 2010, the Mutual Fund Regulations, 2010 and the Public Funds Code, 2010, on March 27, 2018. We have also enclosed the revised subscription document which reflects the new name.

If you have any questions or concerns regarding this change, please do not hesitate to contact us at info@castlestonemgmtinc.com.

Yours sincerely,

The Board of Emerging Markets Minimum Volatility Income Fund Inc.

SUMMARY

The following is a summary only and is qualified in its entirety by the more detailed information appearing elsewhere in this Offering Memorandum, in the Memorandum and Articles of the Fund and the other agreements referred to herein.

THE FUND

Emerging Markets Minimum Volatility Income Fund Inc. is registered as a BVI business company, and was incorporated with limited liability in the British Virgin Islands on 9th August 2007 under the BVI Business Companies Act 2004 (as amended).

INVESTMENT OBJECTIVE AND STRATEGY

The Fund's investment objective is to achieve long term capital appreciation. The Fund will seek to allocate its assets to a portfolio of listed, exchange traded equities which the Investment Manager believes to have "quality" fundamentals and generally represent minimum volatility equities included within the iShares Edge MSCI Min Vol Emerging Markets ETF. The Fund aims to enhance the return to investors by writing Covered Calls against the underlying securities where applicable. These equities will be chosen in order to assist the Investment Manager in meeting the Fund's objective and/or provide exposure to the equities targeted by the Investment Manager. As the Fund is managed on an active, discretionary basis, the asset allocation may differ substantially from that of its performance indicator (such as the iShares Edge MSCI Min Vol Emerging Markets ETF), depending on the Investment Manager's expectations.

The Fund will write European style Covered Calls which can only be exercised by the buyer on expiry and the intention is for these to be between four and eight weeks in length. The Fund may also use American style options which can be exercised by the buyer at any time up until expiry and/or write options that have an expiry date outside of the guidance given.

MANAGEMENT AND ADMINISTRATION

The Directors will meet at least semi-annually to review and assess the investment program and performance of the Fund, and generally to supervise the conduct of its affairs.

Castlestone Management Incorporated, a BVI business company limited by shares, has been appointed as the Investment Manager. The Investment Manager is primarily responsible for the investment and re-investment of the assets of the Fund subject to the overall supervision, control and policies of the Directors.

Castlestone Management LLC, a Delaware limited liability company has been retained by the Investment Manager as the Investment Adviser.

Circle Investment Support Services B.V. has been retained by the Fund to perform certain administrative, accounting and investor services for the Fund and to act as registrar and transfer agent.

Morgan Stanley Smith Barney LLC and Interactive Brokers LLC have been retained as the broker-dealers to facilitate the execution of securities transactions, taking orders, executing trades and providing custody services.

The Shares may generally be redeemed on any Dealing Day. Written notice of redemption must be received by the Administrator by the Cut-off Time (being 12:00 noon (GMT) on any Business Day for the following Business Day NAV).

The redemption of Shares of a Class will be suspended whenever the calculation of the Net Asset Value of Shares of that Class is suspended. Where Shares have been acquired on more than one date, they will be redeemed on a "first in, first out" basis unless otherwise agreed by the Investment Manager and the applicable Shareholder to take into account the different investments of the underlying beneficial owners of Shares.

Any Class B, E, BB, EE, BBB or EEE Shares redeemed within sixty (60) months of such Share's Dealing Day will be subject to a Redemption Penalty, initially equal to 5% of such Share's Subscription Price and declining upon each anniversary of the relevant Dealing Day. Please see Section 4.7, "Redemption of Shares" for further details.

Shares will be redeemed at the Redemption Price of the relevant Class on the Dealing Day, less any applicable Redemption Penalty and other fees and/or charges. The Redemption Price will be an amount equal to the Net Asset Value per Share of the relevant Class calculated on the Valuation Day (less any applicable fees and expenses as further described herein).

Payment of 100% of the redemption proceeds for redeemed Shares will be made as soon as possible and in any event no later than ten (10) days after the relevant Dealing Day. Redemptions shall be subject to provision by the Fund for all Fund liabilities, reserves for contingencies and a charge to defray the transactional costs and expenses deemed likely to be incurred in liquidating investments.

Shares may be compulsorily redeemed at the discretion of the Directors in the circumstances described in Section 4.7, "Redemption of Shares".

Calculation of Net Asset Value

The Directors have delegated responsibility for valuing the Fund's investments and for the calculation of the Net Asset Value of the Shares of the Fund to the Administrator, subject to the supervision and approval of the Directors. The valuation and the calculation will be performed at the offices of the Administrator. The Administrator may consult with, and is entitled to rely upon, advice from the Investment Manager and the Fund's Directors, auditors, custodians, brokers, pricing providers and other similar parties in its determination of the value of the Fund's investments and of the Net Asset Value of the Shares of the Fund.

The valuation of the Fund's investments and the calculation of the Net Asset Value of the Shares shall normally be made at the close of business on each Valuation Day. Other or special valuations and calculations may be requested by the Directors from time to time in their sole discretion.

The Net Asset Value of the Fund will be equal to its total assets less its total liabilities as of the date of determination.

1. THE FUND

Emerging Markets Minimum Volatility Income Fund Inc. is registered as a BVI business company and was incorporated with limited liability in the British Virgin Islands on 9th August 2007 under the BVI Business Companies Act, 2004 (as amended) and is empowered under its Memorandum and Articles and the laws of the BVI to issue and redeem its Shares and to carry on investment activities.

The Fund is managed by its Directors and the Directors will review the activities of the Administrator, the Investment Manager, the Investment Advisor, the Prime Broker and Custodian and decide upon matters of general policy. Subject to the overall supervision of the Directors, the Administrator will calculate the NAV of the Fund and act as its registrar and transfer agent and the Investment Manager will be responsible for all investment activities of the Fund.

2. INVESTMENT OBJECTIVE AND STRATEGY

2.1 Investment Objective

The Fund's investment objective is to achieve long term capital appreciation. The Fund will seek to allocate its assets to a portfolio of listed, exchange traded equities which the Investment Manager believes to have "quality" fundamentals and generally represent minimum volatility equities included within the iShares Edge MSCI Min Vol Emerging Markets ETF. The Fund aims to enhance the return to investors by writing Covered Calls against the underlying securities where applicable. A high yield equity or high yield stock is an equity whose dividend yield is higher than the ten-year US Treasury note. The investor gets to earn a Premium Income writing calls while at the same time appreciate all benefits of underlying stock ownership, such as dividends and voting rights, unless he is assigned an exercise notice on the written call and is obligated to sell his shares. Using the Covered Call option strategy, however, the profit potential of Covered Call writing is limited as the investor had, in return for the Premium Income, given up the chance to fully profit from a substantial rise in the price of the underlying asset.

2.2 Investment Strategy

The Investment Manager uses the iShares Edge MSCI Min Vol Emerging Markets ETF as a reference for performance. The market risk of the Fund can be comparable to that of its performance indicator but not in absolute terms. The Fund is expected to primarily invest in exchange traded equities that the Investment Manager believes to have "quality" fundamentals and generally represent minimum volatility equities included within the iShares Edge MSCI Min Vol Emerging Markets ETF. The Investment Manager will write Covered Call options on those exchange traded equities where applicable. The Fund may also extensively use other asset classes including, but not limited to, the following: money market instruments and fixed income (Corporate and Government).

The Fund will principally invest in emerging market countries' equities. These equities will be chosen in order to assist the Investment Manager in meeting the Fund's objective and/or provide exposure to the equities targeted by the Investment Manager. As the Fund is managed on an active, discretionary basis, the asset allocation may differ substantially from that of its performance indicator (such as the iShares Edge MSCI Min Vol Emerging Markets ETF), depending on the Investment Manager's expectations.

The Investment Manager analyses and monitors factors that it believes could alter and impact equities in emerging markets, including, without limitation: changing economic conditions, monetary and fiscal policies, economic growth, trade and capital flows, demographics, political developments, sovereign risk and changing tax rates and regulations. The portfolio weightings are determined by the Investment Manager with the objective of achieving the best risk/reward opportunities to generate a high total return including the duration and strike of writing the Covered Calls.

There is no restriction on the Investment Manager regarding the percentage of the Fund's total assets that may be invested in any individual equity or country or type or area of investment and the investment objective imposes no obligation to invest in a fully diversified portfolio. However, the Fund will employ all investment techniques under the basis of buy and write of Covered Calls that the Investment Manager believes will help the Fund achieve its investment objectives.

The Fund will write European style Covered Calls which can only be exercised by the buyer on expiry and the intention is for these to be between four and eight weeks in length. The Fund may also use American style options which can be exercised by the buyer at any time up until expiry and/or write options that have an expiry date outside of the guidance given.

The Fund may also invest in other funds and investment vehicles ("Underlying Funds") if it is in accordance with the investment strategy of the Fund and will assist the Fund in achieving its investment objectives.

2.3 Leverage

The Fund is not leveraged. The Fund aims to provide investors with 100% investment exposure, in order to achieve this the Fund may borrow to cover prepaid items such as any applicable Sales Charge and/or margin requirements for currency hedging, but any borrowing is limited to a maximum of 20% of the Net Asset Value of the Fund at the time of incurrence.

3. MANAGEMENT AND ADMINISTRATION

3.1 The Directors

The Directors are responsible for the overall investment policies of the Fund although the day to day investment, management and administration of the Fund has been delegated to the Investment Manager and the Administrator.

The Articles provide that no Director shall be disqualified from contracting with the Fund, either as vendor, purchaser or otherwise. Any contract or transaction entered into by or on behalf of the Fund in which any Director is in any way interested will not be voided, and any Director that is party to such contract or is so interested will not be liable to account to the Fund for any profit realised by any such contract or transaction by reason of such Director holding office or of the fiduciary relationship thereby established. A Director is at liberty to vote in respect of any contract or transaction in which such Director is interested provided that the nature of the interest of any Director or alternate Director in any such contract or transaction is disclosed by such Director immediately upon coming aware of the fact that he is interested in a transaction entered into or to be entered into by the Company. A general notice to the board of Directors that a Director is a shareholder, director, officer or employee of another named company or other person and is to be regarded as interested in any transaction with such firm or company is sufficient disclosure for the purposes of voting on a resolution in respect of a contract or transaction in which such Director has an interest, and after such general notice it is not necessary to give special notice relating to any particular transaction.

The Articles further provide that every Director and officer of the Fund (including any former Director and former officer) is entitled to be indemnified out of the assets of the Fund against any liability, action, proceeding, claim, demand, costs, damages or expenses, including legal expenses, whatsoever which they or any of them may incur as a result of any act or failure to act in carrying out their functions other than such liability (if any) that they may incur by reason of their own wilful misconduct or reckless disregard of their duties or as otherwise provided by law.

Each prospective investor will be required to certify that the Shares are not being acquired directly or indirectly for the account or benefit of a US Person.

Each prospective investor will also be required to certify that, at the time when the subscription for Shares is originated such investor is outside the United States and is outside of the United States as at the date of the execution and delivery of the Subscription Agreement.

Notwithstanding the foregoing prohibitions, the Fund may arrange or permit the private sale of a portion of the Shares to tax-exempt “accredited investors” that are “qualified purchasers” in the United States under restriction and other circumstances designed to preclude a distribution that would otherwise require registration of the Shares under the United States Securities Act of 1933, cause the Fund to become subject to the registration requirements of the United States Investment Company Act of 1940 or cause the assets of the Fund to be “plan assets” for the purposes of the United States Employee Retirement Income Security Act of 1974, as amended (“ERISA”), including presentation by such investors, prior to the delivery to them of Shares, of a letter containing specified representations and agreements.

It is the responsibility of each investor to verify that the purchase of and payment for the Shares is in compliance with all relevant laws of the investor's jurisdiction of residence.

The Offer Period for Class AS, E, EE F and FF Shares has now ended and Shares in these Classes are being offered at their respective NAV per Share on the relevant Dealing Day.

10,000 US\$, Euro or GBP for Class E, EE and EE Shares respectively,

10,000 US\$, Euro or GBP for Class F, FF and FF Shares respectively,

or such other amounts as the Directors determine. All subscriptions are subject to acceptance or rejection, in the sole discretion of the Directors.

Completion of Subscription Agreement

To subscribe for Shares, subscribers must submit their properly completed Subscription Agreement (together with any required additional documentation) by scanned copy by email to the Fund c/o Circle Investment Support Services B.V., Investor Relations Group, email: investors.nl@circlepartners.com (with the executed original to follow by mail to: Investor Relations, Circle Investment Support Services B.V., Smallepad 30F, 3811 NA Amersfoort, The Netherlands) by the Cut-off Time (being 12:00 noon (GMT) on each Business Day for the following Business Day NAV) in respect of the relevant Dealing Day. If these conditions are not satisfied, then the application may be held over until the first Dealing Day following satisfaction of these conditions. Once subscription monies and a completed Subscription Agreement have been received by the Administrator and the relevant Cut-off Time has passed, the subscription is irrevocable.

With respect to certain countries, special requirements may have to be observed with respect to subscriptions. Payment in the amount of the subscription in the applicable currency should be made in accordance with the terms of the Subscription Agreement.

The Subscription Agreement to be executed and delivered by prospective subscribers contains the subscriber's agreement to indemnify and hold harmless the Fund and its Directors and officers and the Investment Manager, Investment Advisor and the Administrator and their principals against any loss, liability, cost or expense (including attorneys' fees, taxes and penalties) which may result, directly or indirectly, from any misrepresentation or breach of any warranty, condition, covenant or agreement set forth therein or in any other document delivered by the subscriber to the Fund.

As noted above, subscribers for and each transferee of Shares will be required to give certain representations and undertakings to the Fund which are contained in the Subscription Agreement.

Where a subscription for Shares is accepted, the Shares will be treated as having been issued with effect from the relevant Dealing Day notwithstanding that the subscriber for those Shares may not be entered in the Fund's register of Shareholders until after the relevant Dealing Day. The subscription monies paid by an applicant for Shares will accordingly be subject to investment risk in the Fund from the relevant Dealing Day.

The Directors may retain Share subscriptions, pending acceptance or rejection, until the Directors determine that sufficient subscriptions have been received with respect to a particular currency to enable the Fund to launch the Class of Shares for that currency. The Fund and the Administrator also reserve the right to reject any application in whole or in part, in their sole discretion, in which event the unused subscription monies will be returned to the applicant, without interest and at the risk and cost of the applicant to the account of origin. For the avoidance of doubt, subscription monies paid in respect of any subscriptions that are held over, pending acceptance or rejection, will not be entitled to receive any interest. The Directors may, in their sole discretion, vary this arrangement.

Shares of a Class will not be available for subscription during any period that the calculation of the Net Asset Value of Shares of that Class has been suspended.

All subscriptions are subject to acceptance or rejection at the sole discretion of the Directors.

Manner of Payment

Payments for subscriptions into the Fund must be made by wire-transfer. Personal checks/bank checks/cash or third party transfers cannot be accepted. The Fund must receive cleared funds by the Cut-off Time (being 12:00 noon (GMT) each Business Day for the following Business Day NAV) in respect of the relevant Dealing Day. Subscriptions for shares may not be revoked by a subscriber after the Cut-off Time.

Subscription Fees and Charges

Class E, EE and EEE Shares Sales Charge

A Sales Charge equal to 5% of the Subscription Price will be paid by the Fund at the time of subscription and amortised over a term of sixty (60) months against the relevant Share Class. The Sales Charge will be paid by the Fund to the Investment Manager who in its turn pays the Sales Charge to brokers and other counterparties (whether or not affiliated with the Investment Manager) who are responsible for the sale of these Classes of Shares.

The Fund may finance the Sales Charge over part or all of the sixty (60) month period by borrowing where possible through a credit facility. Class E, EE and EEE Shares may be charged interest at the lender's current interest rate on the outstanding loan balance on each Valuation Day.

The Fund may, in its sole discretion and without notice to Shareholders, reduce the percentage paid to a broker or other counterparty and amend the amortisation period to ensure that all holders of Shares in the same Class pay proportionately the same amount in respect of the Sales Charge on each Valuation Day.

For the avoidance of doubt, the Sales Charge is paid by the Fund to the Investment Manager and the Investment Manager arranges for the necessary payments to be made to the relevant persons. The Investment Manager does not intend to retain the Sales Charge for its own benefit. The Investment Manager may utilise affiliated or unaffiliated parties to process these payments.

Class F, FF and FFF Shares Entry Fee

An Entry Fee equal to a minimum of 1% and a maximum of 5%, the additional 1-4% being an optional sales load ("Sales Load"), of the Subscription Price may be charged in respect of subscriptions for Class F, FF and FFF Shares. The net amount will be applied in

subscribing for Shares in those Classes. The Entry Fee will be paid by Fund to the Investment Manager who in its turn pays brokers and other counterparties (whether or not affiliated with the Investment Manager) who are responsible for the sale of these Classes of Shares.

For the avoidance of doubt, the Entry Fee is paid by the Fund to the Investment Manager and the Investment Manager arranges for the necessary payments to be made to the relevant persons. The Investment Manager does not intend to retain the entry fee for its own benefit.

4.5 Conversion of Class B, E, BB, EE, BBB and EEE Shares

Any Shareholder holding Class B, BB, BBB, E, EE and/or EEE Shares for a period of more than sixty (60) months (or such other period representing the term for repayment of the Sales Charge as amended by the Fund, as described above) shall have their Shares converted into such number of Class C, CC, CCC, F, FF and/or FFF Shares respectively, as determined by the Directors, with an aggregate NAV (calculated on the relevant Valuation Day) equal to the aggregate NAV (calculated on the same Valuation Day) of the Shares being converted. This conversion shall take place to ensure that the holders of the Class B, BB, BBB, E, EE and EEE Shares will not continue to be subject to any charges in connection with the Sales Charge (as described above) after a term of sixty (60) months (or such other term for repayment of the Sales Charge as amended by the Fund) from the time of subscription of such Shares.

No Entry Fee, subscription fees, conversion fees or other charges shall apply to this conversion of Class B, BB, BBB, E, EE and/or EEE Shares to Class C, CC, CCC, F, FF and/or FFF Shares, as the case may be.

4.6 Dividend Policy

The Fund does not anticipate paying any dividends on its Shares.

4.7 Redemption of Shares

The Shares may generally be redeemed on any Dealing Day. Written notice of redemption, in the form available from the Administrator, must be received by the Administrator by the Cut-off Time (being 12:00 noon (GMT) on each Business Day for the following Business Day NAV).

Redemption requests may be made by post, or email (with original to follow promptly by post). The Shareholder's request should be sent by post addressed to the Fund, c/o Circle Investment Support Services B.V., Investor Relations Group, Smallepad 30F, 3811 NA Amersfoort, The Netherlands. If by email the request should be sent to investors.nl@circlepartners.com.

Shares will be redeemed at the Redemption Price of the relevant Class on the Dealing Day, less any applicable Redemption Penalty and other fees and/or charges. The Redemption Price will be an amount equal to the Net Asset Value per Share of the relevant Class calculated as of Valuation Day less any Redemption Penalty (as described below).

Payment of the Redemption Price (subject to any permitted retentions, deductions or contingencies) will be made as soon as possible and generally will be made no later than ten (10) days after the relevant Dealing Day. The Directors may establish reserves or holdbacks for estimated accrued expenses, liabilities and contingencies (even if such reserves or holdbacks are not otherwise required by generally accepted accounting principles) which could reduce the amount of a distribution upon redemption. Where Shares have been acquired on more than one date, they will be redeemed on a "first in, first out" basis unless otherwise agreed by the Investment Manager and the applicable Shareholder to take into account the different investments of the underlying beneficial owners of Shares.

Shares of a Class may not be redeemed when the calculation of the Net Asset Value of Shares of that Class is suspended.

In addition, the Directors may also suspend the payment of redemption proceeds to a Shareholder if the Directors suspect or are advised that the payment of any redemption proceeds to such Shareholder may result in a breach of violation of any anti-money laundering law by any person in any relevant jurisdiction, or if such refusal is necessary to ensure compliance by the Fund, its Directors or any service provider of the Fund with any anti-money laundering law in any relevant jurisdiction.

Redemption requests are irrevocable unless the Directors determine otherwise, or if there is a suspension of the calculation of the Net Asset Value or the redemption of Shares of the relevant Class. In the event of a suspension of the calculation of the Net Asset Value or the redemption of Shares of the relevant Class, the right of a Shareholder to have its Shares of the relevant Class redeemed shall be suspended and during the period of suspension the Shareholder may withdraw its redemption request. Any withdrawal of the redemption request shall be made in writing and shall only be effective if actually received by the Fund before the termination of the suspension. Shares in respect of which a redemption request has been made and not withdrawn shall be redeemed once the suspension has ended at the Redemption Price for Shares of the relevant Class applicable on the next Dealing Day following the end of the suspension.

Shares will be treated as having been redeemed with effect from the relevant Dealing Day irrespective of whether or not a Shareholder has been removed from the register of Shareholders or the Redemption Price has been determined or remitted. The Shareholder's name shall be removed from the register of Shareholders and the Shares shall be available for re-issue and until re-issue shall form part of the authorised and unissued share capital of the Fund. Accordingly, on and from the relevant Dealing Day, Shareholders in their capacity as such will not be entitled to or be capable of exercising any rights arising under the Articles with respect to Shares being redeemed (including any right to receive notice of, attend or vote at any separate Class meeting) save the right to receive the Redemption Price and any dividend which has been declared prior to the relevant Dealing Day but not yet paid (in each case with respect to the Shares being redeemed). Such Shareholders will be treated as creditors of the Fund with respect to the Redemption Price and will rank accordingly in the priority of the Fund's creditors.

The Administrator will confirm in writing within five (5) Business Days of receipt of all redemption requests which are received in good order except where Shareholders have access to Circle Investment Support Services B.V.'s web access tool in which instance no written confirmation will be sent. Investors failing to receive such written confirmation from the Administrator within five (5) Business Days should contact the Investor Relations Department at the Administrator by email at investors.nl@circlepartners.com or by telephone at (+31) 33 467 38 80 to obtain the same. Failure to obtain such written confirmation may render instructions void.

Redemption Penalty

Any Class B, E, BB, EE, BBB or EEE Share redeemed within sixty (60) months of such Share's Dealing Day (which will be determined on a "first-in, first-out" basis, unless otherwise agreed by the Investment Manager and the applicable Shareholder to take into account the different investments of the underlying beneficial owners of Shares) will be subject to a Redemption Penalty, calculated as a percentage of the redeemed Share's Subscription Price. The applicable percentage of the redeemed Share's Subscription Price is initially 5% and declines to 0% over the sixty (60) month period from the relevant Dealing Day as shown in the table below:

Number of Months after the Dealing Day	Percentage of Subscription Price
0 – 12	5%
13 – 24	4%
25 – 36	3%
37 – 48	2%
49 – 60	1%
61+	0%

The Redemption Penalty is retained by the Fund and will be applied to repay the unamortised balance of the Sales Charge. If the Directors have, in their sole discretion, amended the percentage of the Sales Charge payable and the term for payment, then the percentage of the redeemed Share's Subscription Price and number of months after the relevant Dealing Day that apply to the calculation of the Redemption Penalty will be amended accordingly. The Directors shall not make any changes to the Sales Charge payable that are detrimental to investors. If the amount of the Redemption Penalty that is assessed on the redemption of a Class B, E, BB, EE, BBB or EEE Share exceeds the unamortised balance of the Sales Charge with respect to that Share, the Fund will pay

such excess amount to the Investment Manager and this payment should be viewed as additional compensation to the Investment Manager.

Compulsory Redemption of Shares

The Directors have the right to compulsorily redeem any holding of Shares at any time, with or without cause, upon twenty (20) days' notice to the Shareholder whose Shares are being compulsorily redeemed.

In addition, and without limitation to the foregoing, the Directors have the ability to redeem Shares compulsorily if the Shares are held for the benefit of any Prohibited Investor, or to give effect to an exchange, conversion or roll up policy.

Shares may also be compulsorily redeemed for the purpose of making shareholding adjustments in connection with the payment of any Incentive Fee payable to the Investment Manager.

In the event of a compulsory redemption, the Redemption Price will be determined as of the close of business on the compulsory redemption date (which may be any Valuation Day) specified by the Directors in its notice to the Shareholder. A Shareholder whose Shares are compulsorily redeemed will have no Shareholder rights after the close of business on the date specified by the Directors in their notice to the Shareholders. The Directors may charge any Shareholder receiving such a notice any legal, accounting or administrative costs associated with such compulsory redemption. Payment of the redemption proceeds shall be made in accordance with the procedures applicable in the circumstances when Shares are redeemed at the request of the holder.

4.8 Suspension

The Directors may at any time and from time to time suspend the calculation of the Net Asset Value of any specific Class or Shares (without affecting any other such Classes) and or the purchase and redemption of its Shares (of any one or more Classes) for the whole or any part of any period:

- a) during which any stock exchange, board of trade or other interdealer market or contract market on which any of the Fund's investments are quoted is closed, other than for ordinary holidays and weekends, or in which dealings in such stock exchange are restricted or suspended;
- b) during the existence of any state of affairs which, in the opinion of the Directors, constitutes an emergency as a result of which disposition by the Fund of investments owned by it is not reasonable or practicable, or would be seriously prejudicial, to the holders of Shares or the Fund;
- c) during any breakdown in the means of communication normally employed in determining the price or value of any of the Fund's investments, or current prices on any stock exchanges as aforesaid, or when for any other reason the prices or values of any investments owned by the Fund cannot be reasonably or promptly ascertained;
- d) during any period in which the transfer of funds involved in the realisation or acquisition of any investments by the Fund cannot, in the opinion of the Directors, be effected at normal rates of exchange; and
- e) during any period when one or more Underlying Funds in which the Fund has invested limits or restricts redemptions.

No issue or redemption of Shares of a Class will take place during any period when the calculation of the NAV or the NAV of such Class of Shares is suspended. Moreover, the Fund reserves the right to withhold payment to persons whose Shares have been redeemed (or to persons who have served a redemption notice) prior to such suspension until after the suspension is lifted. Such right will be exercised in circumstances where the Directors believe that to make such a payment during the period of suspension would materially and adversely affect and prejudice the interests of Shareholders who have not redeemed or given notice to redeem. Any such suspension shall be published by the Fund in such manner as the Directors deem appropriate to the persons likely to be affected thereby, and Shareholders requesting the redemption of their Shares by the Fund shall be so notified at the time of their request.

Any suspension of redemptions or the calculation of Net Asset Value of Shares of any one or more Classes, as the case may be, shall take effect at such time as the Directors shall declare and, thereafter, there shall be no redemptions or calculation of Net Asset Value of Shares of the relevant Class(es), as the case may be, until the Directors shall declare any such suspension to be at an end. Such suspension shall not affect the Investment Manager's entitlement to fees.

All affected Shareholders will be notified immediately by the Administrator of any suspension of redemptions or calculation of Net Asset Value of Shares of any one or more Classes, or of any reinstatement following a suspension thereof and all reasonable steps will be taken to bring any suspension to an end as soon as possible.

4.9 Calculation of Net Asset Value

The Directors have delegated responsibility for valuing the Fund's investments and for the calculation of the Net Asset Value of the Shares of the Fund to the Administrator, subject to the supervision and approval of the Directors. The valuation and the calculation will be performed at the offices of the Administrator. The Administrator may consult with, and is entitled to rely upon, advice from the Investment Manager and the Fund's Directors, auditors, custodians, brokers, pricing providers and other similar parties in its determination of the value of the Fund's investments and of the Gross Asset Value of the Shares of the Fund.

The valuation of the Fund's investments and the calculation of the Net Asset Value of the Shares shall normally be made as at the close of business on each Valuation Day. Other or special valuations and calculations may be requested by the Directors from time to time in their sole discretion.

The Net Asset Value of the Fund will be equal to its total assets less its total liabilities as of the date of determination.

The Net Asset Value per Share is determined by first allocating any increase or decrease in the Gross Asset Value of the Fund (being the Net Asset Value of the Fund prior to deduction of the applicable Management Fees, Retrocession Fees and Incentive Fees, but inclusive of all other costs and charges, as described in this Offering Memorandum, properly expensed to each Class of Shares in the Fund, as applicable) among the Class or Classes of Shares pro rata in accordance with the Net Asset Value of each Class at the beginning of that period; then deducting the applicable Management Fee Retrocession Fee and Incentive Fee, and finally dividing the Net Asset Value of each Class by the number of issued Shares therein.

For the avoidance of doubt, (a) the results of the hedging policy applied by the Fund are specifically allocated to the relevant Class of Shares denominated in a currency other than the US Dollar; (b) any mismatches in hedging attributable to the currency hedge for the benefit of Shares denominated in a currency other than US Dollars, will be allocated to all Shares with the aim of maintaining equal performance across all currency Classes; and (c) any Management Fee and Retrocession Fee or any relevant Incentive Fee determined with respect to a particular Class will be debited against the Gross Asset Value of such Class.

The assets of the Fund at any date shall be valued on the accrual basis of accounting in accordance with IFRS or in accordance with the following principles:

- a) no value will be assigned to goodwill;
- b) accrued Management Fees, Incentive Fees, Retrocession Fees and other fees will be treated as liabilities;
- c) estimated annual audit and legal fees will be treated as liabilities;
- d) dividends payable on the Shares, if any, after the date as of which the total net assets are being determined to Shareholders of record prior to such date will be treated as liabilities;
- e) any contingencies for which reserves are determined to be required will be treated as liabilities;
- f) options, futures, equities and all other types of investments shall be valued in accordance with IFRS or as may otherwise be agreed by the Administrator, the Directors, the Investment Management and the Fund's auditors;
- g) in valuing the Fund's investments in Underlying Funds or other investment vehicles, or with fund managers, the Fund will be entitled to rely on the latest unaudited or audited financial statement or performance report of any such fund or investment vehicle or fund manager unless, following consultation with the Investment Manager, the Fund's auditor, independent pricing providers, market makers and other similar parties, it is determined that some other valuation is more appropriate and such valuations will be subject to the approval of the Directors. Any contingent fees or allocations to fund managers retained by the Fund or with respect to investments in other investment entities shall be accrued at such times and in such amounts as the Fund shall determine;
- h) when no market exists for an investment or when there is no price/quote available, the investment shall be valued by the Administrator at fair value following consultation with the Investment Manager, the Fund's auditor,

independent pricing providers, market makers and other similar parties, and such valuations will be subject to the approval of the Directors;

- i) when the Directors (in consultation with the Investment Manager) shall determine that the market price as determined above does not fairly represent the value of the investment, the Directors (following consultation with the Administrator, the Investment Manager and the Fund's auditor) shall value such investment in such manner as they may reasonably determine; and
- j) with reference to the points above all assets of the Fund shall be valued by the Administrator using generally accepted valuation policies and will be subject to the approval of the Directors.

The Investment Manager's involvement in determining the value of the Fund's assets may give rise to a potential conflict of interest.

Full details of the valuation policies adopted by the Fund are contained in the Fund's Valuation Policy and Guidelines, a copy of which may be obtained from the Administrator upon request to investors.nl@circlepartners.com.

The NAV per Share will be made available on the Administrator's website for those Shareholders who have access to the Administrator's web reporting tool, shortly after each NAV is finalised by the Administrator. Shareholders who have chosen not to have access to the Administrator's web reporting tool shall be sent a statement by email or not less frequently than once a month.

In no event and under no circumstances shall the Directors, the Investment Manager, the Fund's auditor or the Administrator incur any individual liability or responsibility for any determination made or other action taken or omitted by them in good faith with respect to the valuation of the Fund's assets. Absent bad faith or manifest error, any valuation made in accordance with the valuation principles disclosed in this Offering Memorandum shall be binding on all persons.

5. FEES AND OPERATIONAL EXPENSES

5.1 Management Fee

Pursuant to the Investment Management Agreement, the Fund will pay to the Investment Manager a Management Fee, accrued daily and paid weekly in arrears, equal to 1.75% per annum of the Gross Asset Value of the relevant Class Shares at each Valuation Day for Class AS, A, B, C, E, F, AAS, AA, BB, CC, EE, FF, AAAS, AAA, BBB, CCC, EEE, and FFF Shares.

5.2 Investment Advisory Fee

Pursuant to the Investment Advisory Agreement, the Investment Manager (and not the Fund) will pay to the Investment Advisor an Investment Advisory Fee. The Investment Manager shall pay a quarterly fixed fee to the Investment Advisor at an annual rate to be agreed from time to time between the Investment Manager and the Investment Advisor as defined in the Investment Advisory Agreement.

5.3 Incentive Fee

Class A, B, C, AA, BB, CC, AAA, BBB and CCC Shares

Pursuant to the Investment Management Agreement, the Investment Manager may be entitled to receive an Incentive Fee from the Fund with respect to Class A, B, C, AA, BB, CC, AAA, BBB and CCC Shares. The Incentive Fee, calculated and accrued daily and payable weekly in arrears, will be an amount equal to 15% of the amount by which the Net Asset Value of a Class of these Shares on a Valuation Day exceeds the higher of (i) the Net Asset Value of that Class as at the last Valuation Day of the previous financial year and (ii) the highest Net Asset Value of that Class calculated during the course of the current financial year (the "High Water Mark"). If one of these Share Classes has a loss chargeable to it from one day's Net Asset Value to the following day's Net Asset Value there will be no Incentive Fee accruing until the amount of the loss previously allocated to the Net Asset Value of the Class has been recouped. Any unrecovered loss with respect to a Share that is redeemed will not be recoverable.

Following the Fund's financial year end the High Water Mark will be reset for each of these Share Classes for the next financial year. The High Water Mark is reset in respect of the first Net Asset Value of the new financial year to the last Net Asset Value of the previous financial year for each of these Share Classes. Because the High Water Mark is reset each financial year, a Shareholder may be required to pay an Incentive Fee on losses recouped from the prior financial year. The Incentive Fee is calculated and accrued daily and since prices could be volatile, the Shareholders of these Share Classes may pay an Incentive Fee on a given day and then suffer losses the following day.

Class AS, E, F, AAS, EE, FF, AAAS, EEE and FFF Shares

Pursuant to the Investment Management Agreement, the Investment Manager may be entitled to receive an Incentive Fee from the Fund with respect to Class AS, E, F, AAS, EE, FF, AAAS, EEE and FFF Shares. The Incentive Fee, calculated and accrued daily, will be an amount equal to 20% of all dividend income and Premium Income received by the Fund and allocable to these Share Classes, adjusted as required for international and domestic taxes payable by the Fund.

Any Incentive Fee in respect of dividend income becomes payable weekly in arrears following receipt of the respective dividend(s). Any Incentive Fee in respect of Premium Income becomes payable weekly in arrears following the expiry, exercise, or repurchase of the call option(s) from which the Premium Income was generated. If call options are repurchased prior to expiry or exercise, the Incentive Fee is payable on the net amount of Premium Income received by the Fund and allocable to these Share Classes (i.e. Premium Income received from writing the call option(s), less the Premium Income paid to repurchase the call option(s)).

For the avoidance of doubt, the Investment Manager will only receive an Incentive Fee equal to 20% of the net dividend income and Premium Income received by the Fund and allocable to these Share Classes, there will be no Incentive Fee payable to the Investment Manager in respect of any changes in the Net Asset Value of these Share Classes. The Incentive Fee for these Share Classes is not subject to a high water mark.

While the Investment Manager is entitled to receive the fees due to it in cash, the Investment Manager may elect to receive the fees by way of the issue of Shares of the Fund to the Investment Manager.

Except to the extent the Investment Manager elects to defer payment of the Management Fee and/or Incentive Fee as further described below, the Fund will pay the Management Fee and/or Incentive Fee within ten (10) calendar days after the last Net Asset Value of a given month is finalised.

5.4 Retrocession Fee

Pursuant to the Investment Management Agreement, the Fund will pay to the Investment Manager a Retrocession Fee, accrued daily and paid weekly in arrears, as set out below:

0.5% per annum of the Gross Asset Value in respect of Class AS, AAS and AAAS Shares as at each Valuation Day,

0.75% per annum of the Gross Asset Value in respect of Class B, BB, BBB, C, CC and CCC Shares as at each Valuation Day,

1.00% per annum of the Gross Asset Value in respect of Class E, F, EE, FF, EEE and FFF Shares as at each Valuation Day.

The Retrocession Fee is payable by the Fund to the Investment Manager and subsequently paid by the Investment Manager to a distributor or financial advisors, investment supermarkets, investment platforms and/or other distributor counterparties (whether or not affiliated with the Fund) who are responsible for the sale of these Classes of Shares and/or allowing the availability of these Class of Shares to be easily assessable to investors. Class A, AA and AAA Shares will not be subject to the Retrocession Fee.

This is a retrocession trail fee and is not intended to be retained by the Investment Manager; it is an industry standard method of compensation. For the avoidance of doubt, the Retrocession Fee is paid to the Investment Manager and the Investment Manager arranges for the necessary payments to distributors or financial advisors, investment supermarkets, investment platforms and/or other distributor counterparties (whether or not affiliated with the Fund) who are responsible for the sale of these Classes of Shares. The Retrocession Fee paid by the Investment Manager to brokers and other counterparties can vary from time to time. The Investment Manager does not intend to retain any part of the Retrocession Fee.

5.5 Deferral of Fees

Pursuant to the Investment Management Agreement the Investment Manager shall be due the Management Fee and any Incentive Fee at the end of each Business Day, and paid the Management Fee and any Incentive Fee at the end of each week. Notwithstanding this provision, the Investment Manager may elect to defer payment of the Management Fee and/or any Incentive Fee to the first day of any financial period following the week in which such fee was earned.

If the Investment Manager elects to defer payment of all or part of the Management Fee and/or any Incentive Fee, any such deferred amounts payable to the Investment Manager shall be treated, and the amounts eventually payable at the end of such deferral periods shall be determined, as if such deferred amounts had been invested in the Fund (or in such "Alternative Investments" as to which the Fund and the Investment Manager agree) without any charge for the Management Fee or any Incentive Fee on the day such fees would otherwise have been payable or earned (whichever is the sooner and relevant) and withdrawn as of the last day of the deferral period. The deferred fee and any appreciation or depreciation thereon shall be paid promptly after the end of the deferral period.

5.6 Administrator Fees

The Administrator receives from the Fund an administrative fee paid quarterly in advance based on an agreed schedule of fees. These fees are detailed in the Administrative Services Agreement.

5.7 Prime Broker and Custodian Fees

The Fund may pay brokerage commissions and fees to recognized securities brokers for executing and clearing transactions on behalf of the Fund. The Investment Manager has complete discretion regarding the selection of such brokers and agreeing the amount of brokerage commissions and fees paid to such brokers. Pursuant to the account with MSSB, custody is not charged as a

separate fee as this is considered as part of the brokerage service. Brokerage service fees are charged at customary rates as set out in the brokerage documents.

5.8 Other Operating Fees and Expenses

The Investment Manager is responsible for the costs of providing all personnel, office space and facilities required for the performance of its services. The Fund bears all other expenses incidental to its operations and business, which include, but are not limited to:

- a) Legal and Professional: the costs of any liability insurance obtained on behalf of the Fund and the Directors; the costs of any litigation or investigation involving Fund activities; fees and expenses of the Fund's auditors, accountants, bookkeepers, legal services, company secretarial fees, Registered Agent/Office fees, middle office support and other professional expenses;
- b) Directors Fees and Expenses: please see Section 3.1, "Directors". Each Director is entitled to be paid up to a maximum of US\$15,000 per annum. The Directors are also entitled to be paid all travelling, hotel and other expenses properly incurred in the performance of their duties as Directors;

- d) Investment Expenses: all investment expenses such as commissions, research fees (including research related travel and lodging), interest on margin accounts and other indebtedness, brokerage fees, custodial fees, and all other expenses reasonably related to the purchase, sale, or transmittal of the Fund's assets.

The Fund will also bear the following fees and expenses:

- e) Marketing Expenses: which includes the cost of printing and the distribution of marketing documents and promotional literature, fees for services rendered by marketing companies, conference sponsorships, associated promotional expenses, cost of fund rating provisions, and marketing-related travel and lodging incurred directly or indirectly by the Investment Manager;
- f) Distribution and Servicing Fees: Fees may be paid to distribution and servicing companies and may include the use of consultancy and advisor firms. The firms may be employed to aid in the marketing and placement of the funds into distribution platforms and fund network sand may include, but are not limited to, firms who maintain distribution and client relationships by presenting the Fund to the identified intermediaries, arranging and attending conferences, providing updates and training on the fund's investment strategy and performance in order to obtain commitments to place assets with the Fund, in addition handle all intermediary queries keeping client informed of all fund information required to increase and maintain investments that aid in the placement of the Fund into distribution platforms and fund networks. The Distribution and Servicing Fees payable by the Fund in respect of Class A, B, C, AA, BB, CC, AAA, BBB and CCC Shares and shall not exceed 5% of the NAV of the mentioned Class in any financial year and in respect Class AS, E, F, AAS, EE, FF, AAAS, EEE and FFF Shares shall not exceed 1.25% of the NAV of the mentioned Classes in any financial year.

To the extent any expenses are incurred by the Investment Manager and/or service provider on behalf of the Fund and one or more other investment vehicles or accounts managed or advised by the Investment Manager and/or service provider, the Investment Manager will allocate expenses between or among the Fund and such investment vehicles and/or managed accounts managed by it based upon the extent to which such expenses are reasonably attributable to the Fund and/or such investment vehicles and/or accounts, as determined in the Investment Manager's sole discretion.

The Fund may incur the above expenses via companies in which the Directors, as well as directors and/or officers of the Investment Manager may have a commercial interest. In addition, the Directors as well as directors and/or officers of the Investment Manager

may be subject to a conflict of interest in determining whether to incur the above expenses through such companies. Please refer to Section 10.3, "Potential Conflicts of Interest" below, in relation to such expenses.

6. TAXATION

Investors should consult their professional advisers on the potential tax consequences of subscribing for, purchasing, holding or redeeming Shares under the laws of their country of citizenship, domicile or residence.

As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment in the Fund is made will endure indefinitely. The summary is based on the assumption that the Fund is owned, managed and operated as contemplated. This summary only considers laws existing at the time advice was taken. No representation is made or intended by the Fund: (i) that changes in such laws or their application or interpretation will not be made in the future; or (ii) that the United States Internal Revenue Service ("IRS") or other tax authorities will agree with the interpretation described below as applied to the method of operation of the Fund. Persons interested in subscribing for the Fund's Shares should consult with, and rely solely upon, their own tax advisor with respect to the tax consequences, including the income tax consequences, if any, to them of the purchase, holding, redemption (involuntary or not), sale or transfer of Shares. This summary is of a general nature only and is not intended to be, nor shall it be construed to be, legal or tax advice to any particular investor.

A withholding tax, also called a retention tax, is a government requirement for the payer of an item of income to withhold or deduct tax from the payment, and pay that tax to the government. In most jurisdictions, withholding tax applies to employment income. Many jurisdictions also require withholding tax on payments of interest or dividends. In most jurisdictions, there are additional withholding tax obligations if the recipient of the income is resident in a different jurisdiction, and in those circumstances withholding tax sometimes applies to royalties, rent or even the sale of real estate. Governments use withholding tax as a means to combat tax evasion, and sometimes impose additional withholding tax requirements if the recipient has been delinquent in filing tax returns or in industries where tax evasion is perceived to be common.

International withholding

Most countries require that payers of certain amounts, especially interest, dividends, and royalties, to foreign payees withhold income tax from such payment and pay it to the government. Payments of rent may be subject to withholding tax or may be taxed as business income. The amounts may vary by type of income. A few jurisdictions treat fees paid for technical consulting services as royalties subject to withholding of tax. Income tax treaties may reduce the amount of tax for particular types of income paid from one country to residents of the other country.

Some countries require withholding by the purchaser of real property. The U.S. also imposes a 10% withholding tax on the gross sales price of a U.S. real property interest unless advance IRS approval is obtained for a lower rate. Canada imposes similar rules for 25% withholding, and withholding on sale of business real property is 50% of the price, but may be reduced on application.

The European Union has issued directives prohibiting taxation on companies by one member state of dividends from subsidiaries in other member states, except in some cases interest on debt obligations, or royalties received by a resident of another member nation. See also European Union withholding tax.

Procedures vary for obtaining reduced withholding tax under income tax treaties. Procedures for recovery of excess amounts withheld vary by jurisdiction. In some, recovery is made by filing a tax return for the year in which the income was received. Time limits for recovery vary greatly.

Taxes withheld may be eligible for a foreign tax credit in the payee's home country.

6.1 British Virgin Islands

The Fund is not subject to any income, withholding or capital gains taxes in the British Virgin Islands. No capital or stamp duties are levied in the British Virgin Islands on the issue, transfer or redemption of Shares.

Shareholders will not be subject to any income, withholding or capital gains taxes in the British Virgin Islands, with respect to the Shares of the Fund owned by them and dividends received on such Shares, nor will they be subject to any estate or inheritance taxes in the British Virgin Islands.

Although the Fund is not subject to tax in the British Virgin Islands, the Fund may be liable for any taxes which may be withheld at source in other countries in respect of income or gains derived from its investments.

An annual government license fee is payable by the Fund, and is currently US\$1,100. In addition, a public mutual fund license registration fee, currently US\$1,500, is payable on an annual basis.

6.2 EU Savings Directive

As of July 1, 2005, the EU Savings Directive (the "EUSD") became effective. The EUSD requires withholding of tax on interest paid to certain residents of the European Union in certain limited circumstances. Payments from the Fund should generally not be subject to the EUSD withholding tax and the EUSD should therefore have little or no impact on the Fund or its investors due to their investments in the Fund. However, because of complexities and uncertainties in the law and certain possible application of the tax on payments through paying agents or nominees, the tax might apply with respect to certain investors who are resident in certain EU member states and associated territories. Investors should consult with, and rely solely upon, their own legal advisors about the possible application of the EUSD withholding tax to payments to them based on their particular facts and circumstances.

6.3 United States

In general, the United States federal income taxation of the Fund depends in material part upon whether the Fund is considered to be "engaged in a trade or business within the United States" within the meaning of the Internal Revenue Code of 1986, as amended (the "Code"). Although no assurance can be given in this regard, it is expected that the Fund's activities should not constitute a United States trade or business based on the safe harbour for solely buying and selling certain commodities for one's own account under Section 864 of the Code and, accordingly, that the Fund generally should not be subject to the regular United States income tax on its income. If the Fund was considered to be engaged in a United States trade or business, the Fund would be subject to United States federal income and branch profits tax on some or all of its income. Assuming that the Fund is not considered to be engaged in a United States trade or business, the Fund will not be subject to any United States federal income tax on its capital gains from the sale of commodities, securities, or stocks or interests thereon. Although capital gains from the sale of commodities, securities or stocks for one's own account should generally not be subject to United States federal withholding tax or tax on net income, income from the sale of certain stocks or securities classified as United States real property interests within the meaning of Section 897 of the Code may be subject to United States net income tax and withholding thereof.

Assuming that the Fund is not considered to be engaged in a United States trade or business, the only United States federal income tax which will be payable by the Fund on its income, if any, from dividends and interest is the 30% withholding tax applicable to dividends and certain interest income considered to be from sources within the United States.

Shareholders, as long as they are neither citizens nor residents of the United States nor engaged in a trade or business in the United States, will not be subject to any United States federal income, withholding, capital gains, estate or inheritance taxes with respect to the Shares owned by them or dividends received on such Shares. Special rules may apply in the case of certain non-US Shareholders that, for example, are former citizens or long-term residents of the United States, are foreign insurance companies that hold, or are deemed to hold, Shares in connection with their United States businesses, or have direct or indirect US owners, which are not tax-exempt entities, and are controlled foreign corporations, passive foreign investment companies or corporations which accumulate earnings to avoid United States federal income tax. A Shareholder should consult his own advisor with respect to the tax consequences, if any, of his ownership of Shares of the Fund.

IRS Circular 230 Notice

Pursuant to IRS regulations, the Fund hereby informs you that: (i) any tax advice contained herein is not intended and was not written to be used, and cannot be used, by any taxpayer, for the purposes of avoiding penalties that may be imposed on the taxpayer under the US Internal Revenue Code; (ii) any such advice was written to support the promotion or marketing of the Shares described in this Offering Memorandum; and (iii) each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

US Foreign Account Tax Compliance Act

Under the US Foreign Account Tax Compliance Act ("US FATCA"), the United States may impose a withholding tax of 30% on certain US sourced gross amounts not effectively connected with a U.S. trade or business paid to certain Foreign Financial Institutions, including the Fund, unless the requisite information reporting requirements are complied with. The Fund will use reasonable efforts to satisfy any obligations imposed on it in order to avoid the imposition of this withholding tax (except with respect to the interest of "Recalcitrant Account Holders" as described in §1.1471-5(g)(2) of FATCA).

The British Virgin Islands Financial Institution Reporting Regime and FATCA

The BVI has signed two inter-governmental agreements to improve international tax compliance and the exchange of information – one with the United States and one with the United Kingdom. A Model 1(b) (non-reciprocal) inter-governmental agreement was signed with the United States (the "US IGA") which gives effect to the automatic tax information exchange requirements of US FATCA and a similar inter-governmental agreement was signed with the United Kingdom (the "UK IGA") (together with the US IGA, the "IGAs"), with respect to the automatic exchange of tax information relating to UK tax resident persons and entities.

Amendments have been made to the Mutual Legal Assistance (Tax Matters) Act 2003 and orders have been made pursuant to this act to give effect to the terms of the US IGA and the UK IGA under BVI law (the "BVI legislation"). Draft guidance notes were published by the government of the British Virgin Islands in July 2014 to provide practical assistance to entities and others affected by the US IGA and/or UK IGA and the BVI legislation (the "Guidance Notes").

The US IGA provides that BVI financial institutions ("FIs") which comply with the US IGA and the BVI legislation will be treated as satisfying the due diligence and reporting requirements of US FATCA and accordingly will be "deemed compliant" with the requirements of US FATCA, will not be subject to withholding tax, and will not be required to close recalcitrant accounts.

The US IGA categorises FIs as either "Reporting FIs" or "Non-Reporting FIs". By default, all BVI FIs will be Reporting FIs, unless they qualify as Non-Reporting FIs. The categories of Non-Reporting FIs are specified in Annex II to the relevant IGA. In relation to US FATCA a Reporting FI is, amongst other things, (i) not required to enter an "FFI agreement" with the US Internal Revenue Service ("IRS"), (ii) required to register with the IRS to obtain a Global Intermediary Identification Number, (iii) required to conduct due diligence on its investors to identify whether accounts are held directly or indirectly by "Specified US Persons", and (iv) required to report information on such Specified US Persons to the BVI International Tax Authority (the "BVI ITA"). The BVI ITA will exchange the information reported to it with the IRS annually on an automatic basis. A Non-Reporting FI will not be subject to these requirements. Both Reporting and Non-Reporting FIs may need to provide self-certification, on US tax forms, as to their US FATCA status, to withholding agents to avoid the imposition of the US FATCA withholding tax (currently at the rate of 30%).

Under the terms of the US IGA US FATCA withholding tax will not be imposed on payments made to the Fund, unless it is deemed to be a Nonparticipating Financial Institution (as defined in the US IGA) as a result of "significant non-compliance". The US IGA does not require the Fund to withhold tax on payments made by the Fund to an account holder on account of US FATCA or otherwise.

The UK IGA imposes similar requirements to the US IGA, so that the Fund will be required to identify accounts held directly or indirectly by "Specified United Kingdom Persons" and report information on such Specified United Kingdom Persons to the BVI ITA, which will exchange such information annually with HM Revenue & Customs ("HMRC"), the United Kingdom tax authority. There is no withholding tax regime associated with the UK IGA nor is there any requirement for Reporting FIs to register with HMRC.

It is anticipated that further inter-governmental agreements ("future IGAs") similar to the US IGA and the UK IGA may be entered into with other third countries by the BVI Government to introduce similar regimes for reporting to such third countries fiscal authorities ("foreign fiscal authorities").

By investing (or continuing to invest) in the Fund, investors shall be deemed to acknowledge that:

- (i) the Fund (or its agent) may be required to disclose to the BVI ITA certain confidential information in relation to the investor, including but not limited to the investor's name, address, tax identification number (if any), social security number (if any) and certain information relating to the investor's investment;
- (ii) the BVI ITA may be required to automatically exchange information as outlined above with the IRS, HMRC and other foreign fiscal authorities;

- (iii) the Fund (or its agent) may be required to disclose to the IRS, HMRC and other foreign fiscal authorities certain confidential information when registering with such authorities and if such authorities contact the Fund (or its agent directly) with further enquiries;
- (iv) the Fund may require the investor to provide additional information and/or documentation which the Fund may be required to disclose to the BVI ITA;
- (v) in the event an investor does not provide the requested information and/or documentation, whether or not that actually leads to compliance failures by the Fund, or a risk of the Fund or its investors being subject to withholding tax under the relevant legislative or inter-governmental regime, the Fund reserves the right to take any action and/or pursue all remedies at its disposal including, without limitation, compulsory redemption or withdrawal of the investor concerned; and
- (vi) no investor affected by any such action or remedy shall have any claim against the Fund (or its agent) for any form of damages or liability as a result of actions taken or remedies pursued by or on behalf of the Fund in order to comply with any of the US IGA, the UK IGA or any future IGAs, or any of the relevant underlying legislation.

Each prospective investor in the Fund should consult their own tax advisor regarding the requirements under US FATCA and the equivalent regime in the United Kingdom with respect to their own situation.

6.4 The Netherlands

The fact that the Fund's Administrator performs certain back-office functions on behalf of the Fund in The Netherlands is not likely to cause the Fund to be subject to taxation in The Netherlands.

In view of the number of different jurisdictions the laws of which may be applicable to Shareholders, no attempt is made in this Offering Memorandum to summarise the possible local tax consequences of the acquisition, holding or disposal of Shares. Investors should consult their professional advisers on the possible tax, exchange control or other consequences of buying, holding, selling or redeeming (involuntarily or not) Shares under the laws of their country of citizenship, residence or domicile.

6.5 The Common Reporting Standard

The British Virgin Islands is one of multiple jurisdictions which have agreed to the automatic exchange of financial account information on the basis of the standard published by the Organisation for Economic Co-operation and Development (the "Common Reporting Standard" or the "CRS"). Financial institutions resident in jurisdictions which have agreed to the CRS, should report certain account holder information to their local tax authorities who will then exchange such information with jurisdictions where account holders are tax residents. It can provide timely information on non-compliance where tax has been evaded, particularly where tax administrations have had no previous indications of non-compliance.

For the purposes of efficiency, the CRS was deliberately built on the framework of FATCA and replicates many of its principles, although there is no withholding tax regime or requirement for reporting financial institutions to register with Foreign Tax Authorities (as defined below). Furthermore, certain CRS client classification, due-diligence and reporting requirements differ from or are more expansive to those deriving from FATCA. Further intergovernmental agreements will therefore be entered into with other third countries by the British Virgin Islands government from time to time to enable reporting to such third countries' tax authorities ("Foreign Tax Authorities") as provided in the CRS.

By investing or continuing to invest in the Fund, Shareholders shall be deemed to acknowledge that:

- (i) the Fund is considered to be a reporting financial institution under the CRS and the Fund (or its agent) will be required to disclose to the competent tax authority of the British Virgin Islands certain confidential information in relation to the Shareholder, including but not limited to the Shareholder's name, address, tax identification number (if any), social security number (if any) and certain information relating to the Shareholder's investment;
- (ii) the competent tax authority of the British Virgin Islands will be required to automatically exchange information as outlined above with the Foreign Tax Authorities;

- (iii) the Fund (or its agent) will be required to disclose to the Foreign Tax Authorities certain confidential information when registering with such authorities and if such authorities contact the Fund (or its agent directly) with further enquiries;
- (iv) the Fund may require the Shareholder to provide additional information and/or documentation which the Fund will be required to disclose to the competent tax authority of the British Virgin Islands;
- (v) in the event a Shareholder does not provide the requested information and/or documentation, whether or not that actually leads to breach of the applicable laws and regulations by the Fund, a risk for the Fund or the Fund's Shareholders being subject to withholding tax or penalties under the relevant legislative or intergovernmental regimes, the Fund reserves the right to take any action and/or pursue all remedies at its disposal including, without limitation, compulsory redemption or withdrawal of the Shareholder concerned;
- (vi) no Shareholder affected by any such action or remedy shall have any claim against the Fund (or its agent) for any form of damages or liability as a result of actions taken or remedies pursued by or on behalf of the Fund in order to comply with the CRS, any further intergovernmental agreements or any of the laws and regulations related to the CRS; and
- (vii) all information to be reported under CRS will be treated as confidential and such information shall not be disclosed to any persons other than the competent tax authority of the British Virgin Islands and the Foreign Tax Authorities or as otherwise required by law.

Shareholders should ensure that their tax affairs are compliant with the laws and regulations applicable in their jurisdiction(s) of residence and/or citizenship (as applicable).

7. RISK FACTORS

Investors should be aware that the value of Shares may fall as well as rise. The Fund may be deemed a speculative investment and is not intended as a complete investment program.

Investment in the Fund involves significant risks. Whilst it is the intention of the Investment Manager to implement strategies which are designed to minimise potential losses, there can be no assurance that these strategies will be successful. It is possible that an investor may lose a substantial proportion or all of its investment in the Fund. As a result, each prospective investor should carefully review this Offering Memorandum and carefully consider whether it can afford to bear the risks of investing in the Fund. Each prospective investor should carefully review the information and matters contained or referred to in this Offering Memorandum, the Subscription Agreement, the Memorandum and Articles and the latest financial statements of the Fund. The following discussion of risk factors does not purport to be a complete explanation of the risks involved in investing in the Fund.

A prospective or continuing investor should not invest in the Fund unless satisfied that it and/or its investment representative or professional adviser has/have asked for and received all information which would enable it or both of them to evaluate the risks in terms of an investment or continued investment in the Fund.

The risks of investing in the Fund include, but are not necessarily limited to, the following:

7.1 Investment Risks

The price of the Shares may fall as well as rise. There can be no assurance that the Fund will achieve its investment objective or that a Shareholder will recover the full amount invested in a Fund. The capital return and income of the Fund are based on the capital appreciation and income on the securities it holds, less expenses incurred. The Fund's return may be expected to fluctuate in response to changes in such capital appreciation, income and expenditure.

7.2 Liquidity and Settlement Risks

The Fund will be exposed to a credit risk with parties with whom it trades and will also bear the risk of settlement default. Market practices in relation to the settlement of certain securities transactions and the custody of assets could provide increased risks.

7.3 Emerging Market Risks

Investing in emerging markets involves additional risks and special considerations not typically associated with investing in other more established economies or securities markets. These factors may result in losses to the Fund and include the following:

- **Political and Economic Factors:** Emerging markets are at an early stage of development and may experience significant economic imbalances and financial instability. High rates of inflation and interest, currency depreciation and other economic, political and social uncertainties, exchange control regulations, a history of government and private sector debt defaults, significant government influence on the economies, relatively less developed financial and market systems, taxation, social instability, diplomatic developments (including war) and the limited liquidity and higher price volatility of the related securities markets may result in substantial losses to the Fund. In addition, many emerging market countries have had a history of political instability that has included military coups d'état and different governmental regimes with changing policies. Certain emerging market countries have seen significant levels of terrorist activity, with escalating acts of violence and attendant damage to property and the economy.
- Further, the economies of emerging markets generally are heavily dependent upon international trade and, accordingly, have been, and may continue to be, adversely affected by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade. These economies also have been and may continue to be adversely affected by economic conditions in the countries with which they trade. The economies of certain of these countries may be based, predominantly, on only a few industries and may be vulnerable to changes in trade conditions and may have higher levels of debt or inflation.

- **Credit Factors:** Securities of emerging market issuers often are not rated at all for creditworthiness and are considered to be speculative and involve greater price volatility than securities of issuers in more established securities markets. Emerging market debt instruments may be characterised by a low credit quality with a correspondingly high risk of payment delays or of default by the issuer. Due to the political and economic factors discussed above, emerging market issuers may find it more difficult to refinance debt securities as they become due.
- **Market liquidity and Volatility:** Emerging countries securities markets are generally smaller than more developed securities markets. The securities traded in such markets are generally less liquid, commissions are higher and securities prices are generally more volatile than securities of comparable companies in non-emerging markets. When seeking to sell emerging market securities, little or no market may exist for the securities. Further, emerging markets may be significantly influenced by large investors trading substantial blocks of securities. They may also be significantly influenced by changes in the sentiment and perceptions of market participants without regard to fundamental factors.
- **Restrictions on Foreign Investment:** Substantial limitations may exist in certain emerging market countries with respect to the ability to repatriate income, capital or the proceeds of sales of securities by foreign investors. In addition, if there is deterioration in an emerging market country's balance of payments, or for other reasons, an emerging market country may impose restrictions on foreign capital remittances abroad. With respect to any emerging market country, there is the possibility of nationalisation, expropriation or confiscatory taxation, imposition of withholding or other taxes on dividends, interest, capital gains or other income and limitations on the removal of funds or other assets of the Fund which could affect adversely the economies of such countries or the value of the Fund's investments in those countries. In addition, certain emerging market countries, political regimes and entities are already subject to and may become the subject of various sanctions regimes including, but not limited to, United Nations, European Union and the US Office of Foreign Assets Control. These sanctions regimes may impact the availability of investment opportunities to the Fund.
- **Availability of information:** Publicly available research on countries and their economics is not as common in emerging market countries as it is in highly developed countries. As a consequence, fewer research reports are available on emerging market countries than on highly developed countries. Therefore, less information may be available with respect to emerging market securities than with respect to securities of highly developed countries, making it more difficult for the Investment Manager to evaluate the strength and quality of the available securities of emerging market issuers, and more difficult to evaluate the strength and quality of the issuers themselves.
- **Tax and other Legal Factors:** The policy environment of emerging markets is often fluid and unpredictable and this may result in sudden adverse changes in tax treatment or laws or regulations affecting investments. Settlement, clearing and registration procedures as well as national legal and accounting infrastructure may be underdeveloped enhancing the risks of error, fraud, or legal challenges and reducing the degree of investor protection. In certain emerging markets, the process of legal and regulatory reform may not be proceeding at the same pace as market developments which could result in investment risk. Legislation to safeguard the rights of private ownership may not yet be in place in certain areas, and there may be the risk of conflict among local, regional and national requirements. In certain cases, the laws and regulations governing investments in securities may not exist or may be subject to inconsistent or arbitrary appreciation or interpretation. Both the independence of judicial systems and their immunity from economic, political or nationalistic influences remain largely untested in many countries.
- **Accounting Standards:** Issuers based in emerging markets are not generally subject to uniform accounting and financial reporting standards, practices and requirements comparable to those applicable to issuers based in developed countries, therefore potentially increasing the risk of fraud or other deceptive practices. The quality and reliability of official data and statistics published by government or securities exchanges in emerging markets may not accurately reflect the actual circumstances being reported.

7.4 Derivative Instruments

To the extent the Fund invests in swaps, derivative or synthetic instruments, repurchase agreements or other over-the-counter transactions or, non-developed countries securities, the Fund may take a credit risk with regard to parties with whom it trades and may also bear the risk of settlement default. These risks may differ materially from those entailed in exchange-traded transactions which generally are backed by clearing organisation guarantees, daily marking-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. Transactions entered directly between two counterparties generally do not benefit from such protections and expose the parties to the risk of counterparty default. While it is expected that all securities and other assets deposited with custodians or brokers will be clearly identified as being assets of the Fund and where possible segregated and hence the Fund should not be exposed to a credit risk with regard to such parties, it may not always be possible to achieve this and there may be practical or time problems associated with enforcing the Fund's rights to its assets in the case of an insolvency of any such party.

7.5 Swap and Other Derivative Trading

The Fund from time to time may trade swaps. Swap contracts are not traded on exchanges; rather, banks and dealers act as principals in the swap market. As a result, the Fund will be subject to the risk of the inability or refusal to perform with respect to such contracts on the part of the counterparties with which the Fund trades. The swap market is generally not regulated by any US or non-US governmental authority. Speculative position limits are not applicable to swap transactions, although the counterparties with which the Fund will deal may limit the size or duration of positions available to the Fund as a consequence of credit considerations. Additionally, swaps may be illiquid and participants in the swap market are not required to make continuous markets in the swap contracts they trade.

7.6 Certain Risks Relating to Market Conditions in Developed Markets

The financial markets have exhibited increased volatility. Recent events and uncertainty have resulted in vast fluctuations in market prices on a daily basis. Market participants may react quickly to unconfirmed reports or information and as a result there may be drastic unexpected market movements, up or down, in short periods of time. While this may create opportunities to identify undervalued investments, it also may make it more difficult to anticipate or predict future market movements. Certain investments may have to be held for longer periods of time until their value potential can be realised, if at all. Changes in government regulations may impact investment and trading opportunities in ways that are hard to anticipate.

In addition, as the Fund may invest in Underlying Funds that may be subject to substantial redemption requests or to the extent that the Fund itself receives substantial redemption requests, such redemptions by investors within a short period of time could require the Underlying Fund manager or the Investment Manager, as applicable, to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the Fund (directly or indirectly through its investment in the Underlying Fund). The resulting reduction in the Underlying Fund's or the Fund's assets could make it difficult to recoup any losses due to a reduced equity base.

These types of market conditions, including volatility and illiquidity, together with governmental responses and potential responses to these conditions, may adversely impact the profitability of certain strategies, and/or adversely impact the ability of Underlying Funds to execute their investment and trading strategies profitably.

7.7 Equity Securities

The Fund may engage in trading equity securities. Market prices of equity securities as a group have dropped dramatically in a short period of time on several occasions in the past, and they may do so again in the future. In addition actual and/or perceived accounting regularities may cause dramatic price declines in the equity securities of companies reporting such irregularities or which are the subject of rumours of accounting irregularities. These factors may adversely affect the Fund and, consequently, the NAV per Share.

7.8 Market Risk

The profitability of a significant portion of the Fund's investment program depends to a great extent on correct assessments of the future course of price movements of emerging and global capital markets and currencies as well as securities and other investments. There can be no assurance that the Investment Manager will be able to accurately predict these price movements.

The securities markets have in recent years been characterised by great volatility and unpredictability. With respect to the investment strategy utilised by the Fund, there is always some, and often a significant, degree of market risk.

7.9 Investments in Underlying Funds; Layering of Fees and Expenses

Under certain circumstances, the Fund's ability to invest in Underlying Funds may be disadvantageous to Shareholders as compared with maintaining investments directly in the underlying investments. In addition to the fees charged to the Fund by the Underlying Fund's, the fees charged by the Fund add an extra layer of fees that a Shareholder would not incur if it were able to invest directly into the Underlying Fund. Also, the Fund bears a double layer of expenses, the expenses of the Fund and the expenses of the Underlying Fund.

7.10 Non-US Securities

The Fund will allocate its assets to invest in securities of companies domiciled or operating in one or more non-US countries. Investing in these securities involves considerations and possible risks not typically involved in investing in securities of companies domiciled and operating in the United States, including instability of some non-US governments, the possibility of expropriation, limitations on the use or removal of funds or other assets, changes in governmental administration or economic or monetary policy (in the United States or elsewhere) or changed circumstances in dealings between nations. The application of non-US tax laws (e.g., the imposition of withholding taxes on dividend, interest or other payments) or confiscatory taxation may also affect investment in non-US securities. Higher expenses may result from investment in non-US securities than would from investment in US securities because of the costs that must be incurred in connection with conversions between various currencies and non-US brokerage commissions that may be higher than in the United States. Non-US securities markets also may be less liquid, more volatile and less subject to governmental supervision than in the United States. Investments in non-US countries could be affected by other factors not present in the United States, including lack of uniform accounting, auditing and financial reporting standards and potential difficulties in enforcing contractual obligations.

7.11 Fixed Income

The Fund may invest directly and indirectly (via Underlying Funds) in debt instruments, including notes, bonds, debentures and asset-backed instruments (collectively, "fixed income securities") issued by corporate or governmental entities. These may be unrated or lower-rated securities which may have greater risks in some respects than the investment risks incurred by an investment in securities which are rated in higher categories by qualified rating agencies. The Fund may also purchase fixed income securities, both secured and unsecured, of companies in reorganization or undergoing financial restructuring. Such fixed income securities would normally be sold by financial institutions (such as banks or insurance companies) or by governmental entities on a basis which does not provide the purchaser with recourse against the seller. Some fixed income securities purchased by the Fund may have long maturities. The purchase of fixed income securities involves a risk as to the creditworthiness of the issuer and a possibility that the investment may be lost.

7.12 Currency Risk

The investments of the Fund that are denominated in a currency other than the base currency of the Fund are subject to the risk that the value of a particular currency will change in relation to one or more other currencies. Among the factors that may affect currency rates are trade balances, the level of short-term interest rates, differences in relative values of similar assets in different currencies, long-term opportunities for investment and capital appreciation and political developments. The Investment Manager may but is not obligated to try to hedge these risks by investing in currencies, currency futures contracts and options thereon, forward currency exchange contracts, or any combination thereof. The extent to which a foreign currency exposure will be hedged

will be determined by the Investment Manager in its absolute discretion. It may not always be possible to completely hedge against such currency risks, nor can there be any assurances that such strategies will be implemented, or if implemented, be successful.

Many emerging markets have underdeveloped capital market structures where the risks associated with holding currency are significantly greater than in other, more developed markets. Currency exchange rates are highly volatile and subject to severe event risks, as the political situation with regard to the relevant foreign government may itself be volatile. Moreover, if the cash flow of the assets is contingent, it may be difficult to quantify the attendant cross-currency risk, compounding the risk of changes in underlying currencies by the other risks in the portfolio. Correlations between these risks are difficult to quantify and, therefore, difficult to hedge. An inaccurate estimation of the correlation may lead to a faulty hedge and a consequent move in the portfolio. It should also be noted that, in highly volatile markets, predictions of correlation based on historical data can diverge dramatically from observed market moves.

7.13 Options

The investor gets to earn a Premium Income writing calls while at the same time appreciate all benefits of underlying stock ownership, such as dividends and voting rights, unless he is assigned an exercise notice on the written call and is obligated to sell his shares. Using the Covered Call option strategy, however, the profit potential of Covered Call writing is limited as the investor had, in return for the Premium Income, given up the chance to fully profit from a substantial rise in the price of the underlying asset.

Purchasing put and call options as well as writing such options are highly specialised activities and entail greater than ordinary investment risks, especially when such options are not used as a hedge or are uncovered. In particular, in purchasing put and call options there is a risk that the entire premium paid for the option may be lost should the option expire out-of-the-money, and therefore become valueless. Writing or selling options carries an open-ended risk should a position remain open contrary to adverse movement of the underlying investment.

Because option premiums paid or received by an investor will be small in relation to the market value of the investments underlying the options, buying and selling put and call options can result in large amounts of leverage. As a result, the leverage offered by trading in options could cause an investor's asset value to be subject to more frequent and wider fluctuations than would be the case if the investor did not invest in options.

However the Fund does not intend to purchase put or call options.

The Fund intends to only write Covered Call options. This generates Premium Income for the fund in addition to the income received from the dividends. The risk is that writing Covered Calls does limit (for the duration of the option) the potential upside for the return on the stock. The writer of a Covered Call option is looking for a steady or slightly rising stock price for at least the term of the option. This strategy is unlikely to be appropriate for a very bearish or a very bullish investor.

7.14 Futures Contracts

The Fund and the Underlying Funds may invest in equity index, interest rate or other futures contracts and may have other investments in futures or other interests. Futures markets may be highly volatile and are influenced by factors such as changing supply and demand relationships, government programs and policies, national and international political and economic events and changes in interest rates.

The low margin or premiums normally required in such trading may provide a large amount of leverage, and a relatively small change in the price of a security or contract can produce a disproportionately larger profit or loss. There is no assurance that a liquid secondary market will exist for futures contracts or options purchased or sold on futures contracts, and contracts may be required to be maintained until exercise or expiration, which could result in losses. Many futures exchanges limit the amount of fluctuation permitted in contract prices during a single trading day. Once the daily limit has been reached in a particular contract, no trades may be made that day at a price beyond that limit. Contract prices could move to the daily limit for several consecutive trading days permitting little or no trading, thereby preventing prompt liquidation of futures and options on futures positions,

potentially subjecting the Fund to substantial losses. Investing in futures contracts or options on futures contracts, is a highly specialised investment activity entailing greater than ordinary investment risk.

7.15 Small Capitalisation Investments

At any given time, the Fund may have significant investments in smaller-to-medium sized companies of a less seasoned nature whose securities are traded in the over-the-counter market. These "secondary" securities often involve significantly greater risks than the securities of larger, better-known companies.

7.16 Loans of Securities

Pursuant to master securities lending agreements or similar agreements, the Fund or Underlying Funds may lend securities from its portfolio to brokers, dealers and financial institutions and receive collateral in the form of cash and/or securities in an amount equal to or greater than the current market value of the loaned securities, including any accrued interest or dividend receivable.

It should be noted that the prime brokers may lend the Fund's or an Underlying Fund's securities to third parties without notice to the Fund or the Underlying Fund and without providing any collateral to the Fund or the Underlying Fund. If a broker makes such loans of securities from the Fund's or the Underlying Fund's account, the Fund or the Underlying Fund, as applicable, may not be able to vote such securities. In addition, if a broker were to become insolvent in the United States, the Fund or the Underlying Fund, as applicable, would not have a claim against any specific assets of such broker, but would have a claim against the pool of assets held for the benefit of such broker's customers. Jurisdictions outside of the United States may not provide any similar rights to the Fund or the Underlying Fund.

7.17 Multiple Investment Managers

It is possible that one or more of the fund managers or other managers of the Underlying Funds (including the Investment Manager) may, at any time, take opposite positions in the same financial instrument. It is also possible that the fund managers (including the Investment Manager) and other managers retained by the Fund may on occasion be competing with each other for similar positions at the same time. Also, a manager (including the Investment Manager) may take positions for its other clients which may be opposite to positions taken for the Underlying Fund in which the Fund invests.

7.18 Incentive Fee

The Investment Manager may be entitled to receive an Incentive Fee with respect to Class AS, E, F, AAS, EE, FF, AAAS, EEE and FFF Shares which is calculated as 20% of net dividend and Premium Income received by the Fund allocable to those Classes, during periods when the Net Asset Value of the Fund may be declining.

As the Incentive Fee is based on the amount of dividend income and Premium Income received by the Fund, the Investment Manager may favour investment decisions which generate greater income over those which may result in a greater total return. The Investment Manager will need to manage this potential conflict of interest and ensure that all investment decisions are made solely for the benefit of the Fund.

The payment of a fee to the Investment Manager based on a percentage of the Fund's net profits in respect of classes A, B, C, AA, BB, CC, AAA, BBB and CCC may create an incentive for the Investment Manager to cause the Fund to make investments that are riskier or more speculative than would be the case if this fee were not paid. In addition, because the "high water mark" is reset each financial year, an Incentive Fee may be payable to the Investment Manager even though Shareholders may not have experienced an increase in the NAV of the Shares since the last time an Incentive Fee was paid. Details of the Incentive Fee are set out in Section 5, "Fees and Operational Expenses".

7.19 Subscription Risk

Where a subscription for Shares is accepted, the Shares will be treated as having been issued with effect from the relevant Dealing Day notwithstanding that the subscriber for those Shares may not be entered in the Fund's register of members until after the

relevant Dealing Day. The subscription monies paid by a subscriber for Shares will accordingly be subject to investment risk in the Fund from the relevant Dealing Day.

7.20 Limited Liquidity

Although Shareholders may generally redeem Shares daily such redemptions may be subject to suspensions, in addition Shares are not freely transferable.

In addition, a Class B, E, BB, EE, BBB and EEE Share will be subject to a Redemption Penalty if such Share is redeemed within sixty (60) months of its Dealing Day. A subscription for Shares should be considered only by persons financially able to maintain their investment and who can afford a substantial loss to their investment. Details of the Redemption Penalty are set out in Section 4.7, "Redemption of Shares".

7.21 Portfolio Valuation

Because of overall size, concentration in particular markets and maturities of positions held by the Fund, the value at which its investments can be liquidated may differ, sometimes significantly, from the valuations arrived at by the Administrator. In addition, the timing of liquidations may also affect the values obtained on liquidation. Securities to be held by the Fund may routinely trade with bid-ask spreads that may be significant. At times, third-party pricing information may not be available for certain positions held by the Fund and/or erroneous prices may be published by the administrators or investment managers of Underlying Funds. In addition, the Fund may hold loans or privately placed securities for which no public market exists. Valuations by the Administrator will be conclusive and binding on all investors.

In addition, with respect to the Fund's investments in Underlying Funds, the value of such investments will be calculated by reference to the net asset value of the Underlying Funds. The procedures for the calculation of the net asset value of the Underlying Funds may not correspond to the method of calculation adopted by the Fund. In addition, the dates on which the Underlying Funds and the Fund calculate their respective net asset values may not coincide. As a result, the calculation of the Fund's Net Asset Value may be made on the basis of the net asset values for the Underlying Funds which are either estimated or historic. Such estimated net asset values and historic net asset values may vary significantly from the actual value of the net assets of the Underlying Funds on the Valuation Day. Such variations may not be reflected in the calculation of the Net Asset Value by the Fund, which, among other things, could result in the Management Fee, the Incentive Fee and the Retrocession Fee representing a discount or a premium.

7.22 Counterparty and Settlement Risk

The Fund is subject to the risk of the inability of any counterparty to perform with respect to transactions, whether due to insolvency, bankruptcy or other causes.

Many emerging markets have different clearance and settlement procedures from developed countries. For many emerging markets' instruments there is no central clearing mechanism of settling rates and no central depository or custodian for the safe keeping of securities. The registration, record-keeping and transfer of instruments may be carried out manually, which may cause delays in the recording of ownership. Increased settlement risk may increase counterparty and other risk. Certain markets may experience periods when settlement dates are extended. Moreover, certain markets have experienced periods when settlements did not keep pace with the volume of transactions which may result in settlement difficulties. Because of the lack of standardised settlement procedures, settlement risk in emerging markets is more prominent than in more mature markets.

7.23 Business Risk

There can be no assurance that the Fund will achieve its investment objective.

7.24 Concentration of Investments

Although it is the policy of the Fund to diversify its investment portfolio, the Fund may at certain times hold relatively few investments. The Fund could be subject to significant losses if it holds a large position in a particular investment that declines in value or is otherwise adversely affected, including default of the issuer.

In addition, Underlying Funds in which the Fund may invest may acquire significant positions in the same instrument, resulting in an inadvertent concentration by the Fund in such investment. This possible lack of diversification may subject the investments of the Fund to more rapid change in value than would be the case if the assets of the Fund were more widely diversified.

7.25 Fund Expenses

The expenses of the Fund may be a higher percentage of net assets than would be found in other investment entities. Strategies utilized by the Fund may require frequent trading and, as a result, portfolio turnover and brokerage commission expenses may significantly exceed those of other investment entities of comparable size. In addition, the fact that the Fund is responsible for a broad array of expenses as further described in this Offering Memorandum under 5, "Fees and Operational Expenses", including research-related travel and lodging, marketing expenses including marketing related travel and lodging and payments to distribution companies may cause the expenses of the Fund to be higher than the expenses of similar funds.

7.26 Reliance on Investment Manager

The profitability of a significant portion of the Fund's investment program depends to a great extent on correct assessments of the future course of price movements of chosen investments. There can be no assurance that the Investment Manager will be able to accurately predict these price movements. The success of the Fund will be dependent on the efforts of the Investment Manager. The prior performance of the Fund may not be indicative of the future performance of the Fund since different economic conditions, financial climates and investment opportunities exist compared to previous years.

Furthermore, investors should not rely on the performance of any other fund and/or account managed by the Investment Manager because in addition to changes resulting from different economic conditions, financial climates and investment opportunities compared to previous years, the investment strategy of the Fund may be different from the investment strategy of the other funds and/or accounts managed by the Investment Manager.

7.27 Portfolio Hedging

The Investment Manager may use, but is not limited to using the following instruments; futures, forwards, swaps (including credit default swaps), equities, options and contracts for difference to hedge against downward movements in the value of a Fund's portfolio, either by reference to specific securities or markets to which the Fund may be exposed. The Investment Manager may also take out hedges against changes in interest or currency rates or credit spreads which would have an impact on the Fund. Any attempt by the Investment Manager to hedge any or all exposures is on a best efforts basis and the Investment Manager provides no guarantee that such technique will be successful.

7.28 Share Class Hedging

As the Fund will operate in US Dollars, the Investment Manager may, where practicable, seek to hedge the currency exposure of any Class of Shares denominated in a currency other than US Dollars. However, there is no guarantee that any such currency hedging will be successful. Any gains or losses of any such currency hedging will be attributed proportionately to all Classes of Shares.

Forward foreign exchange contracts, or other suitable instruments, may also be used more specifically to hedge the value of certain classes of Shares in the Fund against changes in the exchange rate between the currency of denomination of the class of Shares and the base currency of the Fund. Any attempt by the Investment Manager to hedge any or all exposures is on a best efforts basis and the Investment Manager provides no guarantee that such technique will be successful.

7.29 Indemnification

The Memorandum and Articles of the Fund contain broad indemnification provisions that, subject to applicable law, require the Fund to hold the Directors harmless from any losses or costs incurred by them except to the extent such losses or costs arose from their wilful misconduct or reckless disregard of their duties or as otherwise prohibited by law.

The Investment Management Agreement contains broad indemnification provisions that require the Fund to hold the Investment Manager harmless from any losses or costs incurred by it except to the extent caused by its fraud, wilful default or gross negligence.

7.30 Contagion Risk Factor

The Fund has the power to issue Shares in Classes. The Articles provide for the manner in which the liabilities are to be attributed across the various Classes (liabilities are generally to be attributed to the specific Class in respect of which the liability was incurred, unless the Directors determine otherwise or as otherwise set out in this Offering Memorandum). However, the Fund is a single legal entity. Shareholders of one or more Classes of Shares may be compelled to bear the liabilities incurred in respect of other Classes which such Shareholders do not themselves own if there are insufficient assets in that other Class to satisfy those liabilities. Accordingly, there is a risk that the liabilities of one Class may not be limited to that particular Class and may be required to be paid out of one or more other Classes.

7.31 Handling of Mail

Mail addressed to the Fund and received at its registered office will be forwarded unopened to the forwarding address supplied by the Fund to be dealt with. None of the Fund, its Directors, officers, advisors or service providers (including the organisation which provides registered office services in the British Virgin Islands) will bear any responsibility for any delay howsoever caused in mail reaching the forwarding address. In particular the Directors will only receive, open or deal directly with mail which is addressed to them personally (as opposed to mail which is addressed just to the Fund).

The foregoing list of risk factors does not purport to be a complete enumeration or explanation of the risks involved in an investment in the Fund. Prospective investors should read this entire Offering Memorandum and consult with their own legal, tax and financial advisers before deciding to invest in the Fund.

7.32 Compliance with US Reporting and Withholding Requirements

In order to avoid being subject to US withholding tax, both US investors and non-US investors are likely to be required to provide information regarding themselves and the underlying ultimate beneficial owners (if relevant). In this regard the British Virgin Islands and US governments have signed an intergovernmental agreement with respect to the implementation of FATCA.

Prospective investors should consult their own tax advisor with regard to US federal, state, local and non-US tax reporting and certification requirements associated with an investment in the Fund.

The Fund will endeavour to satisfy the requirements imposed on the Fund by FATCA to avoid the imposition of FATCA withholding tax. However, there can be no guarantees or assurances that the Fund will comply with all the requirements imposed by FATCA. In the event that the Fund is not able to comply with the requirements imposed by FATCA and the Fund does suffer US withholding tax on its investments as a result of non-compliance, the Net Asset Value may be affected and the Fund may suffer a loss as a result of the same.

The Fund will endeavour to satisfy the requirements imposed on the Fund by CRS. However, there can be no guarantees or assurances that the Fund will comply with all the requirements imposed by CRS. In the event that the Fund fails to fulfil the reporting obligations imposed by CRS, the Fund will face financial penalties and in severe cases, criminal law proceedings.

The foregoing list of risk factors does not purport to be a complete enumeration or explanation of the risks involved in an investment in the Fund. Prospective investors should read this entire Offering Memorandum and consult with their own legal, tax and financial advisers before deciding to invest in the Fund.

8. REGULATION

The Fund is a "Public Fund" within the meaning of the Securities and Investment Business Act and is registered with the Financial Services Commission under this act. Such registration does not involve an examination of the merits of an investment in the Fund and does not entail substantive supervision of the investment performance or portfolio constitution of the Fund by the Financial Services Commission. There is no financial obligation or compensation scheme imposed on or by the Financial Services Commission in favour of or available to the investors in the Fund.

The Fund's registration and recognition as a Public Fund is subject to certain conditions which include, among others, the following:

- (a) the Fund is prohibited from investing into or holding shares in any Castlestone Management Inc. related fund or entity;
- (b) the Fund is prohibited from issuing any loans or credit facility to a director or employee (or related entity of these individuals) of the Fund, employees of the Investment Manager, or Castlestone Management Inc. affiliated entity;
- (c) the conditions relating to the Corporate Oversight Committee, as set out under Section 3.5 "Corporate Oversight Committee" above; and
- (d) report bi-annually to the Commission general details of the Fund's financials and activities.

The Securities and Investment Business Act requires the Fund to file a copy of this Offering Memorandum with the Financial Services Commission. If any of the information required by the Securities and Investment Business Act to be disclosed in this Offering Memorandum ceases to be accurate in a material particular, the Securities and Investment Business Act requires the Fund to register an amended Offering Memorandum with the Financial Services Commission within fourteen (14) days of the occurrence of the change and, when registered, distribute a copy of the amended Offering Memorandum to each investor in the Fund. The Securities and Investment Business Act also requires the Fund to maintain records sufficient to show and explain its transactions and to enable its financial position to be determined with reasonable accuracy and to prepare financial statements which must be audited in accordance with generally accepted accounting standards by an auditor who has been approved by the Financial Services Commission under the Securities and Investment Business Act. The audited financial statements of the Fund must be signed by a Director and submitted to the Financial Services Commission, in the prescribed form, within six (6) months of the end of the Fund's financial year, together with such other documents as the Financial Services Commission may require.

The Securities and Investment Business Act also requires the Fund to appoint a custodian who is functionally independent of the Fund's Investment Manager or Administrator. In this regard please see information contained in this Offering Memorandum relating to the Prime Broker and Custodian, who hold the assets of the Fund, in Section 3, "Management and Administration". As an entity regulated under the Securities and Investment Business Act, the Fund is subject to the supervision of the Financial Services Commission, which is authorised by the Securities and Investment Business Act and the Financial Services Commission Act, 2001 (as amended) to direct the Fund to furnish information or provide access to any records, books or other documents which it deems necessary to ascertain compliance with the Securities and Investment Business Act, the Mutual Funds Regulations 2010 (as amended), the Public Funds Code 2010 and any other regulations made pursuant to the Securities and Investment Business Act and British Virgin Islands financial services legislation.

The Fund's certificate of registration may be cancelled or made subject to conditions if, inter alia, the Fund has breached the Securities and Investment Business Act, the Mutual Funds Regulations 2010, or any subsidiary legislation or conditions of its certificate, has been convicted of an offence, is carrying on business in a manner detrimental to its investors or to the public interest, or is declared bankrupt or is being wound-up or dissolved.

8.1 Investors' Rights

The Securities and Investment Business Act provides that in the event this Offering Memorandum, or any amendment hereto, contains a misrepresentation relating to any of the disclosures required under section 48(1)(b) of the Securities and Investment Business Act, a person who purchased Shares of the Fund pursuant to such Offering Memorandum or amendment, is deemed to have relied upon the misrepresentation and shall have the rights provided in section 52 of the Securities and Investment Business Act, namely, to exercise a right of action for (i) the rescission of the purchase, or (ii) damages, jointly and severally against the Fund and every Director who, while aware of the misrepresentation, or would have been aware of the misrepresentation had he

made reasonable investigation consistent with his duties, authorised the signing of or approved the Offering Memorandum or any amendment hereto and consented to its publication and filing or caused it to be signed or published and filed, unless it be proven that the purchaser knew of the misrepresentation at the time of purchase. This statutory right of action is in addition to and without derogation from any other right such purchaser may have at law. For the purposes of the Securities and Investment Business Act, "misrepresentation" means an untrue or misleading statement with respect to any of the disclosures required under section 48(1)(b) of the Securities and Investment Business Act, or an omission to disclose any of the disclosures required.

9. ANTI-MONEY LAUNDERING

In order to comply with legislation or regulations aimed at the prevention of money laundering and terrorist financing, the Fund is required to adopt and maintain anti-money laundering procedures, and may require subscribers to provide evidence to verify their identity and source of funds. Where permitted, and subject to certain conditions, the Fund may also delegate the maintenance of its anti-money laundering procedures (including the acquisition of due diligence information) to a suitable person.

The Fund, and the Administrator on the Fund's behalf, reserve the right to request such information as is necessary to verify the identity of a subscriber, unless in any particular case the Directors, or the Administrator on the Fund's behalf, are satisfied that an exemption applies under the Anti-Money Laundering Regulations 2015 (as amended) and the Anti-Money Laundering and Terrorist Financing Code of Practice 2017 (as amended) (the "Code of Practice"). Depending on the circumstances of each application, a detailed verification of identity might not be required where:

- a) the applicant makes the payment for their investment from an account held in the applicant's name at a recognised financial institution;
- b) the applicant is regulated by a recognised regulatory authority and is based or incorporated in, or formed under the law of, a recognised jurisdiction; or
- c) the application is made through an intermediary which is regulated by a recognised regulatory authority and is based in or incorporated in, or formed under the law of a recognised jurisdiction and an assurance is provided in relation to the procedures undertaken on the underlying investors.

For the purposes of these exceptions, recognition of a financial institution, regulatory authority or jurisdiction will be determined in accordance with the Code of Practice by reference to those jurisdictions recognised by the Financial Services Commission as having equivalent anti-money laundering regulations.

Each prospective investor that is an individual will be required to represent in the Subscription Agreement that, amongst other things, he is not, nor is any person or entity controlling, controlled by or under common control with the prospective investor, a "Prohibited Investor" as defined in the Subscription Agreement (generally, a person involved in money laundering or terrorist activities, including those persons or entities that are included on any relevant lists maintained by the US Treasury Department's Office of Foreign Assets Control, any senior foreign political figures, their immediate family members and close associates, and any foreign shell bank).

Further, each prospective investor which is an entity will be required to represent in the Subscription Agreement that, amongst other things: (i) it has carried out thorough due diligence to establish the identities of its beneficial owners; (ii) it reasonably believes that no beneficial owner is a "Prohibited Investor"; (iii) it holds the evidence of such identities and status and will maintain such information for at least five years from the date of its complete redemption from the Fund; and (iv) it will make available such information and any additional information that the Fund may request. Moreover, the Memorandum and Articles contain restrictions on the ownership of Shares in the Fund by Prohibited Investors which include "US Persons" and "Prohibited Investor" as defined therein.

In the event of delay or failure on the part of the subscriber in producing any information required for verification purposes, the Fund, or the Administrator on the Fund's behalf, may refuse to accept the application, in which case any funds received will be returned without interest and at the cost of the applicant to the account from which they were originally debited.

The Fund, and the Administrator on the Fund's behalf, also reserve the right to refuse to make any redemption payment or distribution to a Shareholder or to make such payment only to the account from which the corresponding subscription funds were paid if the Directors or the Administrator suspect or are advised that the payment of redemption proceeds to such Shareholder might result in a breach of applicable anti-money laundering or other laws or regulations by any person in any relevant jurisdiction, or if such refusal is considered necessary or appropriate to ensure the compliance by the Fund or the Administrator with any such laws or regulations in any applicable jurisdiction.

If any person resident in the British Virgin Islands knows or suspects or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or is involved with terrorism or terrorist property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector, the person will be required to

report such knowledge or suspicion to the Financial Investigation Agency of the British Virgin Islands pursuant to the Code of Practice and the Financial Services Commission. Such a report shall not be treated as a breach of confidence or of any restriction upon the disclosure of information imposed by any enactment or otherwise.

The Fund and its agents (including the Administrator, Investment Manager and Investment Advisor) will not incur any liability for adhering to the Fund's responsibilities under its anti-money laundering program, and will be indemnified by the subscriber for any losses which the Fund or its principals or agents may incur for doing so.

10. ADDITIONAL INFORMATION

10.1 Financial Year

The Fund's financial year ends on 31 December of each year.

10.2 Reports and Statements

Deloitte Ltd. have been engaged as the independent auditors of the Fund. The audited financial statements must be submitted to the Financial Services Commission within six (6) months of the end of the Fund's financial year. A copy of the Fund's audited financial statements will also be sent to Shareholders. The Administrator will also make available unaudited daily NAVs to Shareholders.

Since Shares may be sold by the Fund during the course of a financial year, the Articles provide for financial periods, which are portions of a financial year, for the purpose of allocating net profits and net losses of the Shares. A new financial period will commence on the first day of each financial year, the date next following the date of any redemption of Shares, the date of any sale of Shares and the date established by the Directors for determining the record ownership of the Fund's Shares for the payment of dividends, and the prior financial period will terminate on the date immediately preceding the first day of a new financial period.

All financial statements, notices and other documents will be sent, in the case of joint holders of Shares, to the holder who is named first in the register of Shareholders of the Fund at his registered address.

10.3 Potential Conflicts of Interest

Investors' attention is drawn to the following potential conflicts of interest:

The Investment Manager, its holding company, its holding company's shareholders, any subsidiaries of its holding company and any of their directors, officers, employees, agents and affiliates ("Interested Parties" and each, an "Interested Party") may be involved in other financial, investment or other professional activities which may on occasion cause conflicts of interest with the Fund. These include management of other funds, purchases and sales of securities, investment and management advisory services, brokerage services, and serving as directors, officers, advisers, or agents of other funds or other companies. In particular it is envisaged that the Investment Manager may be involved in advising other investment funds which may have similar or overlapping investment objectives to or with the Fund. The Investment Manager may provide services to third parties similar to those provided to the Fund and shall not be liable to account for any profit earned from any such services. Where a conflict arises the Investment Manager will endeavour to ensure that it is resolved fairly. In relation to the allocation of investment opportunities to different clients, including the Fund, the Investment Manager may be faced with conflicts of interest with regard to such duties but will ensure that investment opportunities in those circumstances will be allocated fairly. The Fund may also incur expenses, as detailed in this Offering Memorandum, via companies in which the Directors, as well as directors and/or officers of the Investment Manager and the Investment Advisor may have a commercial interest.

To the extent legally permissible, the Investment Manager is authorised to combine purchase or sale orders on behalf of the Fund together with orders for other funds and accounts managed by the Investment Manager and allocate the assets that are so purchased or sold, generally on an average price basis, among the Fund and such other funds and accounts.

The Investment Manager and/or any company affiliated with it may enter into portfolio transactions for or with the Fund either as agent, in which case they may receive and retain customary brokerage commissions and/or cash commission rebates, or deal as a principal with the Fund in accordance with normal market practice subject to such commissions being charged at rates which do not exceed customary full service brokerage rates.

The Investment Manager and/or any company affiliated with it reserves the right to effect transactions by or through the agency of another person with whom the Investment Manager and/or any company affiliated with it have an arrangement under which that party will from time to time provide to or procure for the Investment Manager and/or any company affiliated with it goods, services or other benefits (such as research and advisory services, computer hardware associated with specialised software or research services and performance measures) the nature of which is such that their provision can reasonably be expected to benefit the Fund as a whole and may contribute to an improvement in the performance of the Fund or of the Investment Manager

and/or any company affiliated with it in providing services to the Fund and for which no direct payment is made but instead the Investment Manager and/or any company affiliated with it undertake to place business with that party.

The Fund or any wholly-owned subsidiary on behalf of the Fund, may acquire securities from, or dispose of securities to, any Interested Party or any investment fund or account advised or managed by any such person, but only with the approval of one of the Directors. Any Director or Interested Party may hold Shares and deal with them as it thinks fit. An Interested Party may buy, hold and deal in any investments for its own account notwithstanding that similar investments may be held by the Fund or any subsidiary for the account of the Fund.

Any Interested Party may contract or enter into any financial or other transaction with any Shareholder or with any entity any of whose securities are held by or for the account of the Fund, or be interested in any such contract or transaction. Furthermore, any Interested Party may receive commissions and benefits which it may negotiate in relation to any sale or purchase of any investments of the Fund affected by it for the account of the Fund and which may or may not be for the benefit of the Fund.

Certain of the Directors are also directors and/or officers of the Investment Manager and the fiduciary duties of the Directors may compete with or be different from the interests of the Investment Manager. Angus Murray and David Cumming are Directors of the Fund as well as directors of the Investment Manager.

In certain circumstances the Investment Manager or its principals may find it necessary or desirable to incur or fund unexpected expenses or other amounts as part of the Investment Manager's rendering services to or for the Fund. The Investment Manager may have the Fund advance funds needed to enable the Investment Manager to pay such amounts, provided such advance is on terms and subject to documentation (providing for repayment of such advance) that is reasonably acceptable to the Directors.

In certain circumstances the Investment Manager or its principals may find it necessary or desirable to incur or fund unexpected expenses or other amounts as part of the Investment Manager's rendering services to or for the Fund. The Investment Manager may have the Fund advance funds needed to enable the Investment Manager to pay such amounts, provided such advance is on terms and subject to documentation (providing for repayment of such advance) that is reasonably acceptable to the Directors.

The Investment Advisor, its directors, officers, employees, agents and affiliates ("Interested Parties" and each, an "Interested Party") may be involved in other financial, investment or other professional activities which may on occasion cause conflicts of interest with the Fund.

The Investment Advisor may provide services to third parties similar to those provided to the Fund and shall not be liable to account for any profit earned from any such services. Where a conflict arises the Investment Advisor will endeavour to ensure that it is resolved fairly.

Certain of the Directors are also directors and/or shareholders of the Investment Advisor and the fiduciary duties of the Directors may compete with or be different from the interests of the Investment Advisor. Angus Murray is Director of the Fund as well as the sole shareholder of the Investment Advisor.

The above is not necessarily a comprehensive list of all potential conflicts of interest.

The Fund will establish, implement and maintain a conflicts of interest policy with the aim of identifying and preventing conflicts of interest, or potential conflicts of interest. Where a conflict of interest does arise in respect of the Fund, the Directors will endeavour to ensure that it is resolved fairly.
